## Inspired design and quality manufacture

Elementi furniture is a crisp, cutting edge range that fuses select Italian design with superior New Zealand craftsmanship.

The range redefines the timeless durability of timber, combining it with designer basin and tapware elements to produce new and unexpected answers for today's bathrooms.

Manufactured in New Zealand from the finest renewable materials, our vanity range combines Vitreous China with the richness of real timber. You will fall in love with the beautiful styling and superb craftsmanship.

A Two Pot Lacquer Finish and Mirothane Clear Coating is applied to all timber ranges improving the surface hardness, chemical resistance and colour fastness. This will not only enhance the timber, but will also protect your investment for years to come. All our white vanities are made from Moisture Resistant white Melteca and solid timbers.

So confident are we in the quality of our product that we offer the security of a 10 year guarantee on our Solid Timber Range, designed to withstand the moisture issues associated with a bathroom environment.
