

# Kitchen Mixers

# Modern with a twist!

Introducing the Cera Luna kitchen faucet from Ideal Standard, a new modern classic with a quirky twist. Standing tall in durable chrome, the Cera Luna faucet balances strong geometric elements with softer, natural curves. Featuring a spout that pulls out to double as a spray, its reach and versatility make it ideal for washing and filling large items vessels – it can reach anywhere you need it to. It also features a handy rubber grip that improves usability, adds a warm texture, and helps to prevent lime scale. And if that wasn't enough, the Cera Luna faucet's narrow looped multi-handle gives you total control, even with a single finger or an elbow.
