

victoria ⊕ albert®

Superior freestanding baths and basins

Victoria + Albert Baths is a British brand with a worldwide reputation for creating beautiful freestanding baths and basins.

Formed in 1996 with a passion for baths and bathing, the organisation has a head office in the United Kingdom and dedicated South African production facilities. Today, Victoria + Albert's international roots fuse together global design, sales and marketing operations with in-house manufacturing to deliver luxurious, lasting products.

A Superior Product

Practical:

Drillable for custom tap holes on location and the bath exterior can also be painted. A highly polished interior surface allows for ease of cleaning.

Strong:

No creaking or flexing. Only QUARRRYCAST® combines the strength and rigidity of cast iron, with the warmth and “ease of use” of modern materials.

Outdoor Use:

Can be installed inside or outdoors for the perfect bathing

QUARRRYCAST®

Volcanic Limestone™ is Victoria + Albert's proprietary name for the very special white rock that is perfect for making baths and basins.

This is formed when the elemental forces associated with liquid magma acts upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands.

Our Italian Designers

Victoria + Albert continually introduce fresh ideas to their range to keep them at the forefront of bathroom innovation. Italian designers Sandro Meneghello and Marco Paoletti are at the forefront of bathroom design & trends contributing to the success of Victoria & Albert.

Victoria + Albert are proud members of British Institute of Interior Design and American

experience.

Warm:

QUARRYCAST® does not cool the water like cast iron, and has better insulating properties than regular acrylic baths.

Lasting:

There are NO surface coatings or layers to chip, delaminate, craze, yellow, wear through, OR rust! Minor scratches can also be easily polished out.

Guaranteed:

A long lasting investment that will add value to your home backed by a 25 Year Guarantee .

Society of Interior Designers.

Victoria + Albert blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix.

The finished result is QUARRYCAST® – a world class composite with an exceptional strength to weight ratio.
