ACCESSORIES

Easy to Clean Waste

All Elementi shower trays are designed to take a 90mm waste that includes both a white and chrome face plate.

Features:

Side exit
Inlet/Outlet size: 90mm / 40mm
Overall height: 117mm (from tray top)
Hole saw floor: 130mm

11499.00
\$61

Moulded Wall

Elementi enclosures have the option of a moulded wall. Our moulded wall has been designed to be reversible allowing the flexibility to have this mould recess installed on either the left or right hand side of your shower depending on your requirements.

Features:

Overall size: 500W x 950H x 80D
Large shelf size: 440W x 250H
Small shelf size: 440W x 130H
Mould edges: 30mm thick

Glass Shelves

The Elementi glass shelves look contemporary and modern in any shower. Easy to install and keep clean. Both shelves meet the AS/NZS2208 standard to ensure safety and quality.

Features:

Large shelf size: 250 x 250 x 10
Small shelf size: 200 x 200 x 10

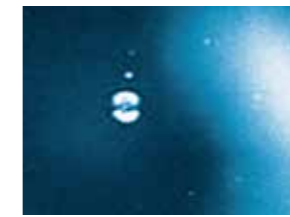

SET OF 2:
11390.00
\$50

Easy Clean NANO Protected Glass Technology

NANO glass has been specially developed using advanced NANO technology creating a non-stick surface. This award winning technology makes glass easier to clean and resists staining and discoloration. Simply Squeegee and walk away with no need for harsh abrasives on the glass.

NANO protected glass

Ordinary glass

Simple Installation with Patented Quick Fix System

Installing an Elementi shower has never been so easy, and can be quickly adjusted without leaving unwanted and unsightly drilled holes. New patented locking technology eliminates the need for drilling holes and using fixing screws to hold the shower door to the wall profiles. This patented design will save you time and money.

With a simple push of the lever your Elementi shower is locked and fitted into place.

Safety Shower Glass

To ensure ultimate safety, all Elementi shower enclosures are fitted with toughened 6mm safety glass doors to AS/NZS 2208 standard.

Quality European Acrylic Liner

Unlike pure acrylic and cheap wall liners, European Sanitary Grade Capped ABS Acrylic 2mm sheet is more stable, high gloss, has excellent moulding capabilities and is impact and scratch resistant.

A Taller Superior Door

Having a 1950mm high door is more user friendly for taller people and allows a higher position for the shower rose. Doors are also fitted with large chrome handle. All Elementi shower liners are also extended height.

Smooth Door Rollers with Easy-Clean Fittings

Smooth running lockable stainless steel double top rollers and spring-loaded double bottom rollers on round enclosures provide effortless performance. Doors are also fitted with magnetic seals. Removable rollers and door seals also allow for easy cleaning.

Proven Shower Tray Design

A proven tray design is the result of 10 years of research and development resulting in a product that has proven performance in the New Zealand market.

A 5mm safety lip on the front edge of the tray creates more surface to silicone, preventing leakage from under the door or extrusion.

A 40mm upstand at the rear of the tray and interlocking side channels ensure water stays within the tray. Doors and liner are fitted within the tray so water flows back into the tray while in use.

A stronger timber and fibreglass commercially reinforced tray ensures self-supporting rigidity tested to 200kg.

Polished steel, black or white shower grates

For a sleek contemporary finish, the new Verona Select shower tray features a rectangular grate with 3 finish options.
