

A FINE FINISH!

After years of chrome dominating as the must-have metal, there has been a move away from the high shine, perfect finish of Chrome towards finishes like Brushed Nickel and Black, that are glamorous without being ostentatious. Always at the forefront of emerging trends and the latest design innovations from Europe, ROBERTSON Bathware now offer products available in a Chrome, Brushed Nickel and Black finish offering a complete design solution for your bathroom.

VERONA SHOWER ENCLOSURES

Shower Tray

The safety seal timber reinforced tray design incorporates front edge safety lips and a generous rear upstand, plus doors and liner are fitted within the tray, all helping ensure water flows back into the tray while in use.

Shower Glass

Easy Clean non-stick NANO glass makes glass easier to clean and resists staining and discoloration. Simply squeegee and walk away with no need for harsh abrasives on the glass.

Shower Doors

At 1950mm high, the taller door is more user friendly and allows a higher position for the shower rose. Roller doors also feature smooth running lockable stainless steel rollers for effortless performance.

Simple Install

New patented locking technology eliminates the need for drilling holes and using fixing screws to hold the shower door to the wall profiles. This patented design will save you time and money.

Rest Assured

Elementi showers carry a 10 year warranty from date of purchase. The most comprehensive warranty of all showers sold in New Zealand.
