SPECIFICATION

Bathroom ideas are at the heart of what we do here at Robertson. Our Consultants to Architects and Designers are constantly striving to give sound advice and guidance throughout the specification process; from early planning through the tendering phases, installation stage and post project maintenance.

SCHEDULE & EARLY PLANNING

An individual product schedule provided with all essential information including product breakdown, codes, dimensional drawings and features. A customised presentation allows your project to come to life, visualising different finishes, textures and designs all in one place.

ESTIMATES & PRICING

We will endeavour to provide a cost effective solution suitable to the projects' needs and work tirelessly with our international suppliers to ensure projects are priced accordingly.

AFTER SALES SERVICE

We have an extensive range of spare parts for all Robertson products. Whether it's replacement parts for a repair job or optional extras to add new functionality. Coupled with our expert After Sales Service team on hand to offer advice and technical information well after the project is completed.

SUSTAINABILITY

At Robertson Bathware we care deeply about the planet and about safeguarding our precious natural resources. While we strive to create beautiful, high-quality bathroom products, we also take our responsibility to protecting our environment very seriously.

That's why we pledge an ongoing commitment to limit the impact of our activities on the environment, and to provide a safe and healthy workplace for our employees.

Our goal is to integrate sustainable practices into every aspect of our operations, from the design and development of our products, to their production, packaging and distribution.

We also educate our employees about sustainable practices they can implement, and seek to work with suppliers and partners who share our environmentally responsible values.

BORN FROM A MIX OF GLOBAL EXPERIENCE AND LOCAL KNOWLEDGE

Our diverse portfolio covers an impressive number of prestigious projects within New Zealand and across the Asia Pacific region.

Notable specifications:

Te Arikiniui Pullman Auckland Airport – Tapware and Mixers / Showers / Basins / Baths / Toilets / Accessories

Sofitel So Auckland – Tapware and Mixers / Showers / Baths

The Westin Denarau Island – Tapware and Mixers / Showers

Six Senses Fiji – Tapware and Mixers / Showers

The Roki Hotel Queenstown – Tapware and Mixers / Showers / Baths

Cordis Hotel Pinnacle Tower Auckland – Tapware and Mixers / Showers / Baths / Accessories

Marriott Resort Momi Bay – Tapware / Basins / Baths / Accessories

The Horizon Hotel Auckland – Tapware and Mixers / Showers / Baths

Mayfair Hotel Christchurch – Tapware and Mixers

Holiday Inn Express Queenstown – Tapware and Mixers / Basins / Toilets

Crowne Plaza Christchurch & Fiji – Tapware and Mixers / Toilets / Accessories

BLURRED?

A contrasting blue toilet seat and raised push button are perfect for those living with dementia or with restricted vision. The dark blue seat and button stand out amongst the environment to make life easier for those in need.

MAKE LIFE A LITTLE EASIER

With a pan and seat up to 40mm higher than standard toilets, the overheight toilet allows for easy transfer on and off the seat. This not only makes life easier as we increase in age, but is ideal for the elderly and those with restricted movement.

NO POWER? NO PROBLEM!

HANSAELECTRA takes intelligence to the next level. The power module generates electricity from the faucet's water usage. No Power supply or battery is required - simple installation and power generation included.

DESIGNED TO MAKE A DIFFERENCE

Unique anti scalding feature

Sensor tracks temperature and shuts off when water exceeds the preset temperature.

New self cleaning valve

Less energy consumption and a self cleaning membrane for extended lifetime.

High end materials

Metal free waterways with new composite.

Tilt aerator to adjust water beam

10° adjustment range in any direction to perfectly match any basin shape.

Advanced PSD Sensor technology

New designed low energy sensor with improved detection area, temperature tracking and extended range of App-based settings.

Power where there is no power

Self powering variant.

IMPROVE HYGIENE

MEDIPRO products have been developed specifically for hospitals and other demanding healthcare settings. Designed to fit seamlessly into a complex and busy environment while meeting every ergonomic need and hygiene guideline.

Minimal risk of injury

Rounded contours and an optional hot water stop minimise the risk of any injury.

Easy to clean

A smooth surface allows for easy cleaning.

Safe water quality

The HANSAPROTEC system means all faucets are made with material according to the new low lead standards. In addition, all waterways are nickel-free.

ANTI VANDAL

An anti-vandal shower head is specifically designed to reduce damage and tampering in public or high traffic restrooms. Constructed from durable materials and a heavy duty mounting plate this shower head is built to withstand rough handling and vandalism attempts.

Featuring a streamlined, minimalist design to minimise the potential for misuse and equipped with tamper resistant fittings along with a flow restrictor to maintain water conservation.

As added flexibility our anti-vandal showerhead has the ability to be installed in either rear water inlet or exposed water inlet situations by simply removing the blanking plug attaching a 15mm pipe connector and hose.

By incorporating these protective features, antivandal shower heads help ensure that public facilities remain functional and hygienic, reducing maintenance costs and extending the lifespan of the equipment.

SHOWERS

HANSAVIVA

Designed for aged care and accessible bathrooms. Ergonomic controls, intuitive operation and water-wise performance make HANSAVIVA suited to environments where residents need confidence and staff need consistency, every day.

HANSA BASICJET

A versatile, hard-wearing choice. A 3-spray hand shower built to pair with any modern fitting. Practical to specify and well suited to hotels, multiunit residential and commercial fit-outs.

CENTRAL BRASS®

A LEGACY OF EXCELLENCE TRUSTED BY COMMERCIAL BUILDERS FOR OVER 120 YEARS

Products from Central Brass have been the go-to resource for contractors, builders and plumbers for over 100 years. Their goal is to make choosing kitchen mixers and fixtures the easiest part of the project. Enjoy the peace of mind that comes from knowing they're a company with decades of experience with a commitment to quality. Rest assured when you choose Central Brass, you're choosing something that is made to last.

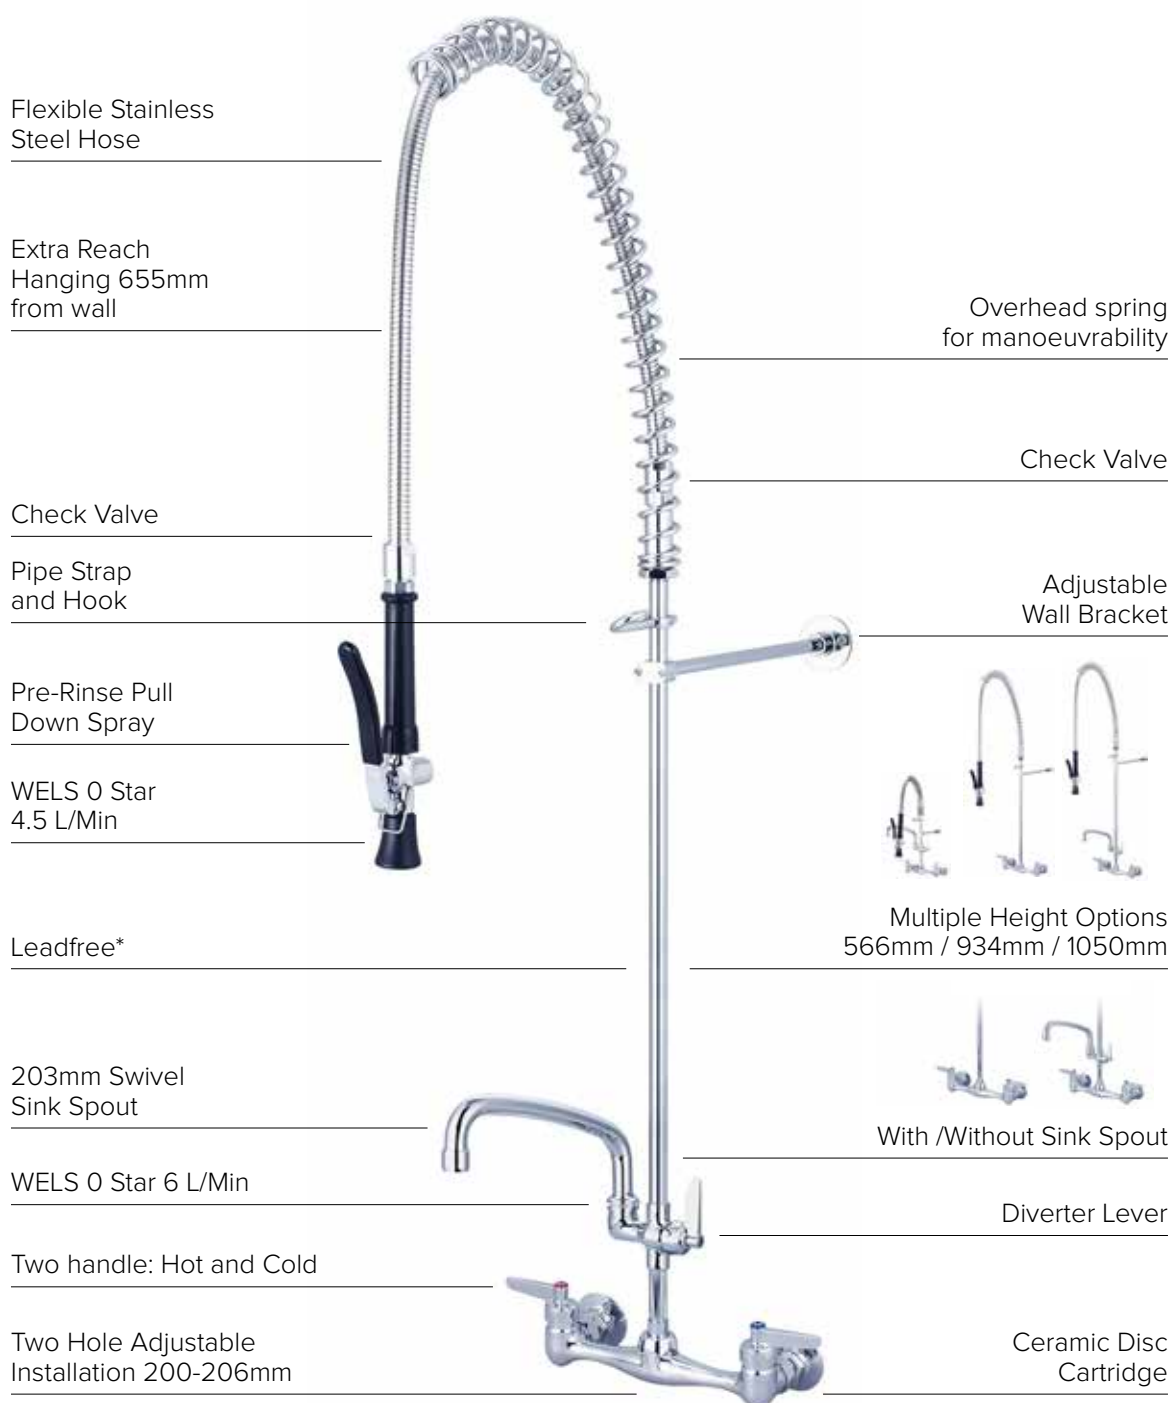

Commercial kitchen mixers are indispensable in professional culinary environments, offering efficiency and versatility in food preparation and cleaning up. These robust mixers are designed to withstand the rigours of everyday use. Providing reliable water flow for various kitchen tasks, from rinsing wastes to filling pots for cooking. The essential specialised pre rinse spray is tailored to tackle the unique challenges of maintaining hygiene in a busy kitchen. These powerful sprays are designed to remove grease, grime, and food residues, not only do they create a more hygienic environment but also reduce the risk of cross-contamination and upholding stringent food safety standards.

PRE-RINSE MIXER

Extra spraying power and the convenience of flexible design are the primary advantages of a pre-rinse mixer. These are great for rinsing dishes that have just arrived in the kitchen, or ones that have been splattered with food and unfortunately set to the side.

A pre-rinse mixer boasts strong jets of water able to power-off heavy amounts of food. Its unusually tall and incredibly flexible hose is ideal for reaching around and under large, awkwardly shaped dishes to get into every corner, nook and cranny.

OPTIONAL EXTRA:

SWIVEL SPOUT

Don't get stuck with a stationary spout if you have multicompartmental sinks or large pots or buckets that need filling. Swivel spouts can move from left to right and work brilliantly for switching from a rinse sink to a washing-up sink. They also work great for larger items that need the space for lifting, where a stationary faucet would just get in the way.

HYGIENIC SURE-GRIP

The Elementi design team has developed a unique range of safety rails with a sleek non-slip hygienic surface. These are widely used in the healthcare sector, conscious of the need to maintain cleanliness.

DIAMOND KNURL

Diamond anti-slip knurling comes with all Support rails

DURABLE Ø32MM RAILS

Unlike alternatives, both the Assist and Support collections come with a Ø32mm thickness of rail aiding durability and longevity.

Complies to NZS 4121:2001.

HEAVY DUTY FIXINGS

Assist and Support hand rails feature heavy duty fixings for added extra strength and stability.

Complies to NZS 4121:2001.

LEFT OR RIGHT HAND?

Both the 90° and 45° safety rail can be used in either a left or right hand application.

Complies to NZS 4121:2001.

ELEMENTi®

SPECIFICALLY DESIGNED

The Assist shower tracks have been specifically designed for use in accessible bathrooms in resthomes, hospitals, retirement villages and residential homes. Manufactured in NZ from premium powder coated aluminium, these superior tracks showcase a sleek, minimalistic profile.

The tracks are provided as a kit-set complete with:

- Required screws and wall fittings
- Nylon glides
- Heavy duty stainless steel curtain hooks
- Adjustable length ceiling hanger/s as required
- 2 different lengths available depending on ceiling height and track installation height

CUSTOM SIZES AVAILABLE

Being manufactured here in New Zealand, it's no problem at all to do custom sizes. Contact us for more information and we will work with you to find a solution.
