ROBERTSON BATHWARE

BORN FROM A MIX OF GLOBAL EXPERIENCE AND LOCAL KNOWLEDGE

Two generations have grown the Robertson brand over its 35-year history. It is still proudly New Zealand and family owned by Max and Debbie Robertson, who founded Robertson Bathware in 1987. They've been joined over the years by son James, Sales Manager and daughter Kirsten, who has an eye for product design.

Since its inception, the company has adhered to a set of stringent guidelines. Firstly, be innovative: create and supply products that are aesthetically pleasing, and simple and effective to use. Secondly, always maximise the potential of our team, both internationally and in New Zealand. Finally, continually develop technology and sustainable solutions to ensure the quality of our products, services, and consulting.

We develop our products for the New Zealand market, but we seek inspiration and improvements from around the globe. This could be the latest design trends from the Cersaie Trade Show in Bologna, Italy; technical innovations from ISH Germany; or the Kiwi ingenuity and superior craftsmanship we utilise here at home. All of this comes together to deliver breathtaking design and guaranteed quality, supported by industry leading service and support to help achieve the perfect design.

FEATURES

PETTINE / TELAIO

Textured bathroom furniture adds a captivating dimension to bathroom aesthetics, transforming an ordinary space into a tactile masterpiece. The texture not only enhances the tactile quality of the furniture but also contributes to the overall ambiance of the bathroom. Whether it's the gentle fluted pattern of Pettine or the classical shaker style of Telaio you will be adding an element of depth and character that invites touch and leaves a lasting impression. It's a design choice that adds personality and charm to the bathroom, making it a space where functionality and sensory delight come together seamlessly.

ELESTONE FLAT TOP

EleStone is an Acrylic Premium Solid Surface providing a sleek modern appearance, a seamless surface coupled with non-porous and hygienic properties. Available in 12mm and 20mm options.

INTERNAL DRAWER FINISH

Coloured internal drawers take attention to detail that much further, giving you style inside and out.

SOFT CLOSE DRAWERS

All Pettine and Telaio vanities incorporate premium soft close drawers on a silent slide system.

CABINETRY MANUFACTURED IN NEW ZEALAND

Elementi cabinetry is manufactured in New Zealand, using high quality materials combined with superior craftsmanship to produce innovative and beautiful bathroom furniture of the highest standard that will last for years to come.

ELECAST

EleCast tops are a polymethyl methacrylate (PMMA) solid surface, offering a durable, nonporous, nontoxic environmentally friendly material made specially for bathrooms and wet areas. EleCast tops are drillable on site, giving you the choice of deck or wall mounted tapware along with position offset to the left or right.*

*Installer must allow room for tailpipes and hoses.

MOISTURE RESISTANT CABINETS

Elementi vanities are made from a moisture resistant board with protective edge tape applied for improved durability.

OPTIONAL CONCEALED DRAWER

An optional inner drawer provides additional storage for those smaller items, allowing you to completely de-clutter your bathroom.

Note: Not compatible with 440mm, 600mm and double stacked drawer versions.

DURABLE THERMOFORM

Thermoform panels are made by wrapping vinyl film around the face and edges of an HDF MR drawer to provide a seamless, durable and moisture-resistant finish. Thermoform is chip resistant unlike a lacquer finish.

HANDLE OPTIONS

Telaio is available in multiple handle options with a modern profile handle, a classic D-handle, a minimalist round handle, provincial cup handles or timber handles. Pettine is available in the modern profile handle only. All handles come in multiple quality finishes.

FINISHES

Choose from an array of stylish finishes, from neutral colours to wood grain. Our Thermoform collection of vanities allow you the option to offer a real point of difference or seamlessly integrate into your bathrooms environment.

VANITY PACKERS

A 16mm vanity packer is available in all Pettine/Telaio finishes as an additional extra designed to fit the gap beside the vanity and the wall when installed against a corner.

PREMIUM

Riga 1400 Wall Vanity
Cabinet Finish: Black Walnut
Top Finish: White
Neo Basin Mixers
Finish: Chrome

FEATURES

PURE / RIGA / ARRIVO / LOOM / ABBRACCIO

Parisi furniture provides both optimum craftsmanship and luxurious design. The Pure Italian Carrara Marble top with black industrial style frame exhibits sophistication, while the EleStone bench tops are perfectly complemented by a choice of premium natural veneer joinery, or the unique hand carved black walnut texture of the Loom collection.

FINGER PULL DRAWERS

Soft-function drawers with finger pull drawer handles add sleek functionality while retaining the clean lines and minimalist aesthetic.

DRAWER ORGANISER

De-clutter your bathroom with built in drawer organisers. Finished in a dark beautiful wood, internal and external. Available in Abbraccio, Riga, Arrivo and Loom vanities.

ELESTONE FLAT TOP

EleStone is an Acrylic Premium Solid Surface providing a sleek modern appearance, a seamless surface coupled with non-porous and hygienic properties.

ITALIAN CARRARA MARBLE

Marble tops are famous for their unique natural beauty and provide an instant focal point in the bathroom. The finish is primarily white in colour with veins of black and grey amongst other subtle tones. Applies to Pure Vanity only.

MOISTURE RESISTANT MARINE PLY

Parisi cabinets are made from a premium moisture resistant multi-wood marine ply perfect for areas such as bathrooms with constant exposure to water.

ELESTONE INTEGRATED BASINS

The all in one option with sink integrated within the countertop and produced from the same material. Instead of the sink being an added element, it is built directly into the countertop.

CABINET FINISHES

Parisi offer unique finishes and textures to complement their designs with solid natural veneers, textured finishes or a harmonising white gloss finish.

A stunning centre-piece for your bathroom, the Pure Frame cabinet has a solid marble wash basin which is perfectly complemented by the black industrial style metal frame and white multi-wood premium joinery cabinet.

ONE OF A KIND NATURAL STONE

Marble is a natural material, so each vanity basin is one of a kind. Being a product of nature, Marble is prone to variations in colour, shade, texture, density, scratches and chips. It is these characteristics that actually add to the beauty and charm of the material.
