Showering Redefined

**COMFORT.
SAFETY.
ECO-FRIENDLY.**

Easysset is the latest auto temperature mixer by American Standard. Commonly known as a thermostatic mixer, the auto temperature mixer maintains the correct balance of hot and cold water based on user's preset temperature. It will react - within a fraction of a second- to any changes in the water pressure or temperature by automatically re-adjusting the ratio of hot and cold water so your water temperature stays consistent throughout the entire shower.

You no longer need to waste precious time and water fiddling with the lever to adjust your water temperature every time before you shower or get scalded (or at least a rude shock) when your family member uses cold water in other parts of the house.

Ultimate Comfort.

Maximum Safety.

THERMOCOMFORT

Pamper yourself with a shower at a constant and comfortable temperature even when cold water is used elsewhere in the house.

THERMOSAFE

For homes with children and elderly, prevent accidental scalding with the safety temperature control that caps water temperature at 49°C and shuts off when cold water supply fails.

SAFETY-LOCK

For a safer shower experience, water temperature is always maintained at a comfortable 38°C. You will need to press the button to get water hotter than 38°C.

COOLSHIELD

As an added precaution, the faucet body has been designed to stay cool at all times, preventing any instances of accidental scalding.

When
Space Matters.

SPACECREATE

With bathroom space getting smaller, the last thing you want is to clutter your walls with racks you can do without.

With EasySET Exposed, not only does it look stylish, you will love the extra space on the mixer to keep those toiletries and other accessories within reach.

Plus, it is cleverly designed to drain off excess water from the mixer and comes with side hooks to hang your loofahs and bath sponges.

All thoughtfully designed for your comfort and convenience.

Showering Made Easy.

PUSH

Imagine a rejuvenating shower experience as intuitive and simple as breathing. From the cascading water of the Rainshower to the invigorating Hand Shower, all activated individually with a simple push of a button.

TURN

Be in total control of both the temperature and volume of the water to create your own perfect shower. Choose a stronger flow of water to ease muscle tensions or a more sensuous flow for that relaxing spa-like pampering. All with an easy turn of the dial.

ENJOY

Pamper yourself in an unforgettable shower experience that never forgets your preferred temperature and volume for your perfect shower experience. Enjoy the same rejuvenating shower experience at once, every time.

Small in Detail. Big on Function.

AIRNERGIZE

Thanks to our thoughtful Airnergize technology that infuses water droplets with air, you will be wrapped in a luxurious shower spray while using less water.

EASYGLIDE

No more fumbling moments with a slider that allows you to adjust its height in just one fluid twist-and-go movement.

SWIVEL BATH SPOUT

Simply hide away the bath spout for more space flexibility and safety in the bathroom.

EASYCLICK

With a simple push of a button, you can easily switch between 3 spray functions for an indulgent shower of your choice.
