IMPORTING IDEAS

Your bathroom is central to the way you live. Reliable performance, exquisite design and customer service that are second to none should be central to the creation of your bathroom. You can trust Robertson to bring the highest standards of quality, style and innovation to the space you create.

Established in 1987 and proudly New Zealand owned and family operated, Robertson import Europe's most innovative bathroom products. But we do more than that, we import ideas – creating opportunities for New Zealand architects and designers to innovate and reinvent the bathroom space.

Through our collection of brands, we deliver a promise of breathtaking design and guaranteed quality, backed by industry leading service and support to help realise the perfect design.

Robertson takes pleasure in introducing to you their exclusive range of Healthcare & Accessible Bathroom Solutions. We are a highly reputable New Zealand company who have had extensive experience in providing solutions to the healthcare industry.

These include:

- Rest Homes
- Hospitals
- Retirement Villages
- Hotel/Motel Accessible Units
- Special Needs Schools
- Private Residency

GROHE EUROECO SPECIAL SINGLE-LEVER MIXER

NEW DESIGN FOR THE PROFESSIONAL SOLUTION

GROHE presents a new generation of Euroeco Special faucets integrating the latest project know-how to meet our clients' demands. Hygiene, ergonomics durability and safety are reflected in a modern yet timeless design.

THE OPTIMUM SOLUTION FOR ALL APPLICATIONS

From hospitals to care homes; from patients' bathrooms to examination rooms; and from laboratories to kitchens, the new Euroeco Special offers maximum flexibility for all draw-off points.

GROHE StarLight

Radiant chrome finish resistant to soil and tarnishing - stays like new for years.

Rounded shapes:

- Degressive shapes to avoid accidents
- Smooth curves for easy cleaning
- Lever length matches spout length for convenient operation

Overlapping cap:

- Water drips off for easy cleaning

Integrated temperature limiter:

- Maximum temperature can be pre-set to reduce energy costs and for extra safety

ErgoTouch:

- Easiest operation with only a tip of the finger
- Reduced contact areas of the lever
- Strong metal lever

GROHE SilkMove

Smoothest handling and a lifetime of maintenance-free comfort and reliability.

Laminar mousseur:

- No bacteria caught from the air

GROHE
GROTHERM MICRO THERMOSTAT

CHROME:
34 487 000

**A COMPACT THERMOSTATIC SHOWER MIXER
ENGINEERED BY GROHE - SMALL BUT BIG ON SAFETY**

The Grotherm Micro is a superbly crafted thermostat that delivers safety and performance you can trust year after year. It has a built in non-return valves to prevent any backflow of wastewater into your clean water supply and features cutting edge GROHE technology. GROHE TurboStat ensures the water is the perfect temperature even if the supply fluctuates. The Micro does this by limiting the maximum hot water temperature to a safe value or, in the case of a tap without a mixer, premixing the water to ensure it is not too hot. With its compact size it is ideal for use with washbasins and that means it can offer great protection in facilities for children, senior citizens and people with mobility issues. The temperature can be set to between 15° and 43°. For added hygiene, fast and easy thermal disinfection can be carried out without recalibration. And the multilayered coating of scratch resistant GROHE StarLight chrome has a sparkle that lasts for years. Grotherm Micro – the small thermostat with big safety standards!

FEATURE

SAFE AND CONVENIENT THERMOSTATIC CONTROL OF WATER FLOW AND TEMPERATURE FOR THE PERFECT SHOWER

American Standard

Indulge in the ultimate showering experience that never forgets your preferred water source, temperature and volume of your perfect shower.

With the convenient push of a button, you can experience a cascading shower head or invigorating hand shower with body jets, all while maintaining control of the water volume with an easy turn of the dial.

Once you've selected the desired water volume using the intuitive dial, there's no need to reset it again. For an even more fuss-free experience, you can install the PreSet control outside your bathroom and activate it with just one easy push before stepping into your shower.

If you plan to have hand showers, overhead showers and body jets all in one bathroom, EasySET gives you the flexibility to configure your dream shower so that it looks as good as it feels. The intuitive showering icons let you see exactly which EasySET option controls each shower outlet.

The EasySET thermostatic mixer provides a constant showering temperature, while the safety temperature control and auto shut-off function prevents accidental scalding should the cold water supply fail.

FEATURES

PUSH. TURN. ENJOY

Be in total control of both the temperature and volume of the water to create your own perfect shower.

EasySET Exposed Thermostatic (Auto Temperature) mixer maintains the correct balance of hot and cold water based on user's preset temperature. It will react - within a fraction of a second - to any changes in the water pressure or temperature by automatically re-adjusting the ratio of hot and cold water so your water temperature stays consistent throughout the entire shower.

You no longer need to waste time and precious water fiddling with the lever to adjust your water temperature every time before you shower or get scalded (or at least a rude shock) when your family member uses cold water in other parts of the house.

Thoughtfully designed for your comfort and convenience, the extra space on the mixer provides space for toiletries, while the swivel bath spout can be hidden away underneath for more space and safety in the bathroom.

THERMOCOMFORT

Pamper yourself with a shower at a constant and comfortable temperature even when cold water is used elsewhere in the house.

THERMOSAFE

For homes with children and elderly, prevent accidental scalding with the safety temperature control that caps water temperature at 49°C and shuts off when cold water supply fails.

COOLSHIELD

As an added precaution, the faucet body has been designed to stay cool at all times, preventing any instances of accidental scalding.

TOILETS

FEATURE

NO DIRT.
NO STAINS.
NO BACTERIA.
NO WORRIES.

American Standard HygieneClean System is the new standard of safety in the bathroom delivered by powerful flushing technology & cutting-edge innovation.

American Standard provides you with not just beautiful and purposeful bathroom solutions, but also safe, clean and hygienic.

DOUBLE VORTEX

Unlike other toilets, the Double Vortex system flushes 100% of the water at once through two water openings positioned at the top of the bowl, creating two powerful whirlpools that flush waste away while cleaning the entire surface of the ceramic bowl leaving nothing behind. The improved flush also uses less water with 4.5 litres for full flush and only 3 litres for half flush.

HYGIENE RIM

NORMAL RIM
Rim traps germs and bacteria.

HYGIENE RIM
No hard to reach surfaces.

ASSIST FOLDING TOILET RAILS

The Assist Folding Safety Rails are impressive, with 2 models to choose from. The options include the sleek anti-slip SureGrip rail on its own or the option of incorporating the toilet roll holder.

A locking feature is also available if required. This means the rail locks into place when folded into the upright position, offering the user rigid support whilst standing.

Comes standard in 32ø, 25ø available on request.

ASSIST SHOWER TRACKS

The Assist shower tracks have been specifically designed for use in accessible bathrooms in resthomes, hospitals, retirement villages and residential homes. Manufactured in NZ from premium powder coated aluminium, these superior tracks showcase a sleek, minimalistic profile.

The tracks are provided as a kit-set complete with:

- Required screws and wall fittings
- Nylon glides
- Heavy duty stainless steel curtain hooks
- Adjustable length ceiling hanger/s as required
- [2 different lengths available depending on ceiling height and track installation height]

Custom sizes available:

Being manufactured here in New Zealand, it's no problem at all to do custom sizes. Contact us for more information and we will work with you to find a solution.

APPLICATION

*AS A GUIDE ONLY. PLEASE REFER TO OFFICIAL DOCUMENTATION FOR NEW ZEALAND BUILDING CODE

WITHOUT EXCEPTION ROBERTSON PRODUCTS ARE GUARANTEED TO MEET OR EXCEED THE STANDARD REQUIREMENTS FOR THE NEW ZEALAND BUILDING CODE.

In addition to specific guarantees provided, all products imported and or sold by Robertson are, to the extent applicable, guaranteed in accordance with the Durability Clauses of the New Zealand Building regulations and Consumer Guarantees Act.

Our guarantees apply only to products imported and sold by Robertson.

These guarantees do not cover products sold by Robertson under any other agency, company or brand name. As part of our ongoing commitment to continuous improvement, Robertson NZ Ltd reserves the right to make changes to its products at any time.

All guarantees are subject to terms and conditions and available on request or can be viewed at:

<https://www.robertson.co.nz/warranties>

The guarantee is against manufacturing defects only.

As this guarantee may not cover the cost of removal or installation, all products must be checked to see they are in good order and condition and fit for the intended purpose prior to installation.

This guarantee does not cover products that have been damaged by misuse, accident or neglect.

This guarantee is applicable to all products installed in domestic residential situations and or light commercial situations such as kitchens, bathrooms and laundries in motels, hotels and retirement villages.

This guarantee does not include commercial situations such as public washrooms and or kitchens and laundries in public buildings, schools, sports centres, gymnasiums and hospitals. Bathroom vanities installed in commercial situations are not covered under guarantee.

This guarantee does not cover normal wear and tear.

The use of some cleaning products will void the guarantee. Refer to manufactures recommended cleaning instructions or download cleaning guide from Robertson website.

This warranty is personal to the first end user and is not transferable unless explicitly stated in writing by Robertson to a specific entity.

Each and every warranty claim must be applied for online using the Service Request form and be accompanied by the original proof of purchase and a photo or video showing the defect

Products must have been installed in accordance with the manufacture instructions and in accordance with local City or Council Standards requirements.

Products must have been cleaned as per manufacturer's recommendations. A copy of our Product Care Guide can be downloaded from our website.

Products must have been maintained in good order and condition and serviced in accordance with manufacturers' recommendations.

Robertson reserves the right to determine any issue or uncertainty in connection with the warranty.

Robertson reserves the right to repair and or replace the defective product and or component at its discretion or nearest equivalent if a product needs to be replaced.

All Warranty covered repair work is to be performed by a Robertson representative and or authorised service agent or plumber who has received an authorisation number to attend the job.

This guarantee does not purport to exclude or limit your rights under the Consumer Guarantees Act which applies to consumers acquiring goods other than "in trade". If you acquired the products "in trade" you agree that the Consumer Guarantees Act does not apply.

When we exchange a product under warranty with a new replacement product then the original warranty period remains as per the original product.

Please contact us for information on product suitable for commercial spaces and our commercial warranty statement.
