HYGIENIC RIMLESS DESIGN

*There are no
hard-to-reach areas
with the new rimless
design allowing
easy cleaning with
a single wipe.*

Normal rim traps
germs and bacteria.

Rimless with no hard
to reach surfaces.

HYPERJET FLUSHING

*Hyperjet flushing projects a jet of
water rather than the traditional
flushing mechanism where water
pours down the rim. Through the
powerful delivery of water maximum
cleaning of the inner bowl is achieved.*
