

VERSATILE DESIGN

Fuori Scala is a new collection of thin rim basins from ARTCERAM. This versatile design can be used as a countertop, vessel or inset basin, as well as a mounted option on a dedicated metal frame.

BASINS

FEATURE

SOFT GEOMETRIC SIMPLICITY

Born from a medley of geometrical shapes, pillowed surfaces and defined edges, the Signature™ Collection is based on a Superellipse, an iconic form that translates elegantly into the thin edges and soft curves of the entire collection.

American Standard

RAISING THE DESIGN STANDARD

Since being appointed as Vice President of Design for American Standard in the Asia Pacific Region, Antoine Besseyre Des Horts leads a team of designers from around the globe. Antoine strives towards raising the standard of living by crafting stylish high-performance products which are beautiful, purposeful and safe for everyone.

Known to draw his design inspiration from the details of everyday life, Besseyre Des Horts found inspiration for the Signature collection from modern product forms including soft minimalism, humanised technology and slim architectural details. The creation of the American Standard frame and pillow signature elements then gave birth to a new shape, the "Superellipse".

FEATURE

TEXTURED BASINS

Designed by Meneghello Paoletti Associati, textured basins are inspired by textile manufacturing, where a 3D fabric texture is applied. The Esagno basin texture is representative of a honeycomb, while the Rombo features a quilted texture designed to suit any interior scheme from classic to contemporary.

FEATURE

THE PERFECT PARTNER

Inspired by the Italian Studio Meneghello Paoletti, Vogue continues ARTCERAM's tradition of contemporary iconic bathware. Vogue is a round metal basin stand with a soft design that partners perfectly with the Rombo basin, transforming into a real free-standing basin. Available in matt black, this basin stand comes with a towel holder and a grilled metal sheet at the base.

FEATURE

BRONZE IS BACK

In line with the current preference for mixing and matching materials in the bathroom and with the trend for metals and special finishes currently dominating bathroom design, the Monroe vessel basins offer two distinctive bronze finish options – Satin Zanzibar and Satin Nickel. These alternative metallic finishes can be easily incorporated into any kind of setting, making a bold statement in a way that has not been possible before.
