The Robertson mobile friendly website provides easy access to all you need. Simply start your journey by browsing through brand or product groups which will then lead you to related product detail, inspirational lifestyle imagery and all necessary feature, and specification information.

If you have an idea of what brand or collection you are looking for, the suggestive search function enables you to quickly get a result.

Then your preferred products and choices can simply be saved to 'My List' which can then be printed or emailed.

TERMS AND CONDITIONS

We have sought to ensure the accuracy of the information in this document but in case of error, Robertson accepts no responsibility for any direct or consequential loss. Measurements should only be used as a guide and where critical should be checked before purchase and again before installation. Errors and omissions expected. We reserve the right to change specifications, prices and designs at any time without notice. While we strive to portray an accurate representation, some images/colours may differ slightly from the actual product. Not all products shown in imagery are available.

*Basins and furniture:
Basins come complete
with brackets. Tapware
and wastes shown with
basins and furniture are
not included. Please give
an allowance of 10mm
(-/+ for all Vitreous China
basin dimensions.*

IMPORTING IDEAS

Your bathroom is central to the way you live. Reliable performance, exquisite design and customer service that are second to none should be central to the creation of your bathroom. You can trust Robertson to bring the highest standards of quality, style and innovation to the space you create.

Established in 1987 and proudly New Zealand owned and family operated, Robertson import Europe's most innovative bathroom products. But we do more than that – we import ideas, creating opportunities for New Zealand architects and designers to innovate and reinvent the bathroom space.

Through our collection of brands, we deliver a promise of breathtaking design and guaranteed quality, backed by industry-leading service and support to help realise the perfect design.

American Standard

Every day American Standard's goal is to find more ways to improve life in and around the bathroom and kitchen, sometimes in obvious ways, other times in more subtle ways. They examine everything and are willing to challenge everything. No matter how good their products are today, they know they can always be better tomorrow.

Not just "their standard," but "the standard" for living healthily, responsibly and beautifully everywhere. It's "the standard" they have set and reset since 1875. It is "the standard" that is reflected in every product they make and represented in their highest ambition and deepest commitment to their employees, partners, trade professionals and customers worldwide.

American Standard raise the standard by making technologies and designs accessible.

GUARANTEES

TAPWARE	BASINS	TOILETS	SHOWERS
10 YEAR GUARANTEE DRIP-FREE GUARANTEE FOR LIFE OF MIXER	10 YEAR GUARANTEE	10 YEAR GUARANTEE 1 YEAR GUARANTEE ON SEAT	10 YEAR GUARANTEE

PRODUCT FEATURES

TAPWARE

	FLAWLESS FINISH Advanced plating produces a durable surface with a long-lasting finish.		MULTI-PRESSURE VALVE TECHNOLOGY Easily accessible valve housing for water flow rate adjustment.
	EFFORTLESS CONTROL Leading edge cartridge technology provides a wide and smooth operating angle.		PULL-OUT SPRAY The pull-out spray increases operating radius of the mixer.
	SMOOTH FLOW Aerator insertion reduces scaling while delivering a uniform, even water flow.		SWIVEL SPOUT The smooth movement of swivel spouts offers easy handling.
	FORWARD ROTATING LEVER Clever handle temperature control from upright forward to ensure the handle does not hit splash back		

BATHS

	HIGH GRADE ACRYLIC 100% cross-linked nonporous casted pure acrylic.		ABOVE-FLOOR WASTE Above-floor waste in freestanding bath allows for ease of installation.
	WEIGHT TESTED Cross-linked acrylic ensures extra strength, tested to 350kg weight limit.		ADJUSTABLE FEET The bath can easily be raised or lowered to make level.

ACCESSORIES

	FLAWLESS FINISH Advanced plating produces a durable surface with a long-lasting finish.		MADE IN SPAIN Fine European craftsmanship that also displays the Latin flair of its heritage. * Excludes Hotel Accessories
--	---	--	--

SHOWER ENCLOSURES

	NANO PROTECTED GLASS State-of-the-art non-stick surface coating that resists staining and discolouration.		SMOOTH ROLLER DOORS Lockable stainless steel top rollers for effortless performance plus removable for easy cleaning.
	QUICK FIX SYSTEM Patented clip system allows for simple installation and easy adjustment.		QUALITY ACRYLIC LINER European sanitary grade 2mm acrylic wall liner is high gloss, impact and scratch resistant.
	EXTENDED HEIGHT Extra tall 1950mm door and liner allowing for higher shower head positioning.		WATERPROOF SAFETY LIP A 5mm safety lip on tray front edge creates more surface to silicone for improved waterproofing.
	SAFETY SHOWER GLASS 6mm toughened safety glass doors and return panels to AS/NZS 2208 standard.		REINFORCED TRAY A stronger commercially reinforced tray ensures self-supporting rigidity tested to 200kg.
	HIGH REAR UPSTAND A higher 40mm upstand at the rear of the tray ensures improved watertightness.		EASY-CLEAN SEALS All seals are easily removable for cleaning or replacement.

FURNITURE

	MANUFACTURED IN NEW ZEALAND Combining high quality components with superior craftsmanship.		PORCELAIN GLAZED VITREOUS CHINA Extremely smooth hand finished china with scratch-resistant porcelain glaze.
	SOFT CLOSE DRAWER SLIDER German made full-extension soft close drawer systems.		PREFINISHED MOISTURE RESISTANT BOARD Designed to withstand bathroom moisture and humidity.
	HI-MACS® ACRYLIC STONE TOP An advanced extra-strength hygienic compound with durability similar to that of natural stone.		RAISED REAR PROFILE Rear lip is designed for additional waterproofing to prevent surface water running down the back of the vanity.
	DURABLE POLYMARBLE A man-made marble mixed from polyurethane resin and marble powder that is hygienic, and durable.		

SHOWERS

	FLAWLESS FINISH Advanced plating produces a durable surface with a long-lasting finish.		AQUA AIR TECHNOLOGY Air-inflated water drops increasing velocity while using up to 50% less water.
	SWISS INSPIRED Influenced and inspired by the Swiss design styles of modernism, minimalism and precision.		

LAUNDRY TAPWARE

	SWIVEL SPOUT The smooth movement of swivel spouts offers easy handling.		LONGER HOSE TAILS 550mm hose tails for hassle free connection.

A FINISH FOR EVERY BATHROOM STYLE

As in most areas of design it's the details that tie a project together and for a bathroom, choice of tapware is a crucial element. The Bathroom Ideas wide range of products means design without restrictions. Several collections are available in various finishes to meet the demands of personal taste and different design schemes.

BRUSHED NICKEL

Warmer in hue than chrome which has a very cool undertone, Brushed Nickel adds purity and natural harmony.

Elementi Wall Arm / Page 116
Splash Plus Shower Head / Page 116
Splash Plus Slide Shower / Page 160
Uno Diverter Mixer / Page 94

PRODUCT
FEATURE

BRONZE IS BACK

In line with the current preference for mixing and matching materials in the bathroom and with the trend for metals and special finishes currently dominating bathroom design, the Monroe vessel basins offer two distinctive bronze finish options – Satin Zanzibar and Satin Nickel. These alternative metallic finishes can be easily incorporated into any kind of setting, making a bold statement in a way that has not been possible before.

Please give an allowance of 10mm [-/+] for all Vitreous China basin dimensions.

HAND FINISHED VITREOUS CHINA

Each piece of our porcelain is made to the very highest standards, hand finished using natural vitreous china or fine fireclay. This is then finished with an advanced porcelain glaze for an ultra smooth, remarkably hard and highly scratch-resistant surface that is easy to clean, hygienic and won't rust, fade or discolour.

NATURALLY WHITE QUARRYCAST®

Victoria + Albert are passionate about their unique Quarrycast® material. A blend of Volcanic Limestone™ and high performance resins results in an incredibly strong, naturally white gloss finish.

POLYMARBLE BASINS

Polymarble basins are made from a mixture of polyurethane resin with a gel coat finish and uses marble powder to create strength and rigidity. It's effectively a man-made marble that is hygienic, durable and impact resistant.

ELEGANT FINE EDGES

American Standard has created a new Thin Touch basin collection that exudes luxury without compromising on functionality with elegant fine edges. The Thin Touch on these basins is becoming a sought-after look that gives a super modern yet absolutely timeless finish.

ITALIAN FLAIR

ArtCeram has achieved both Italian and worldwide success as an iconic company that produces real culture. Fresh, ambitious and original products, formed by the spirit of innovation and developed by celebrated Italian designers Sandro Meneghello and Marco Paoelli.

TEXTURED BASINS

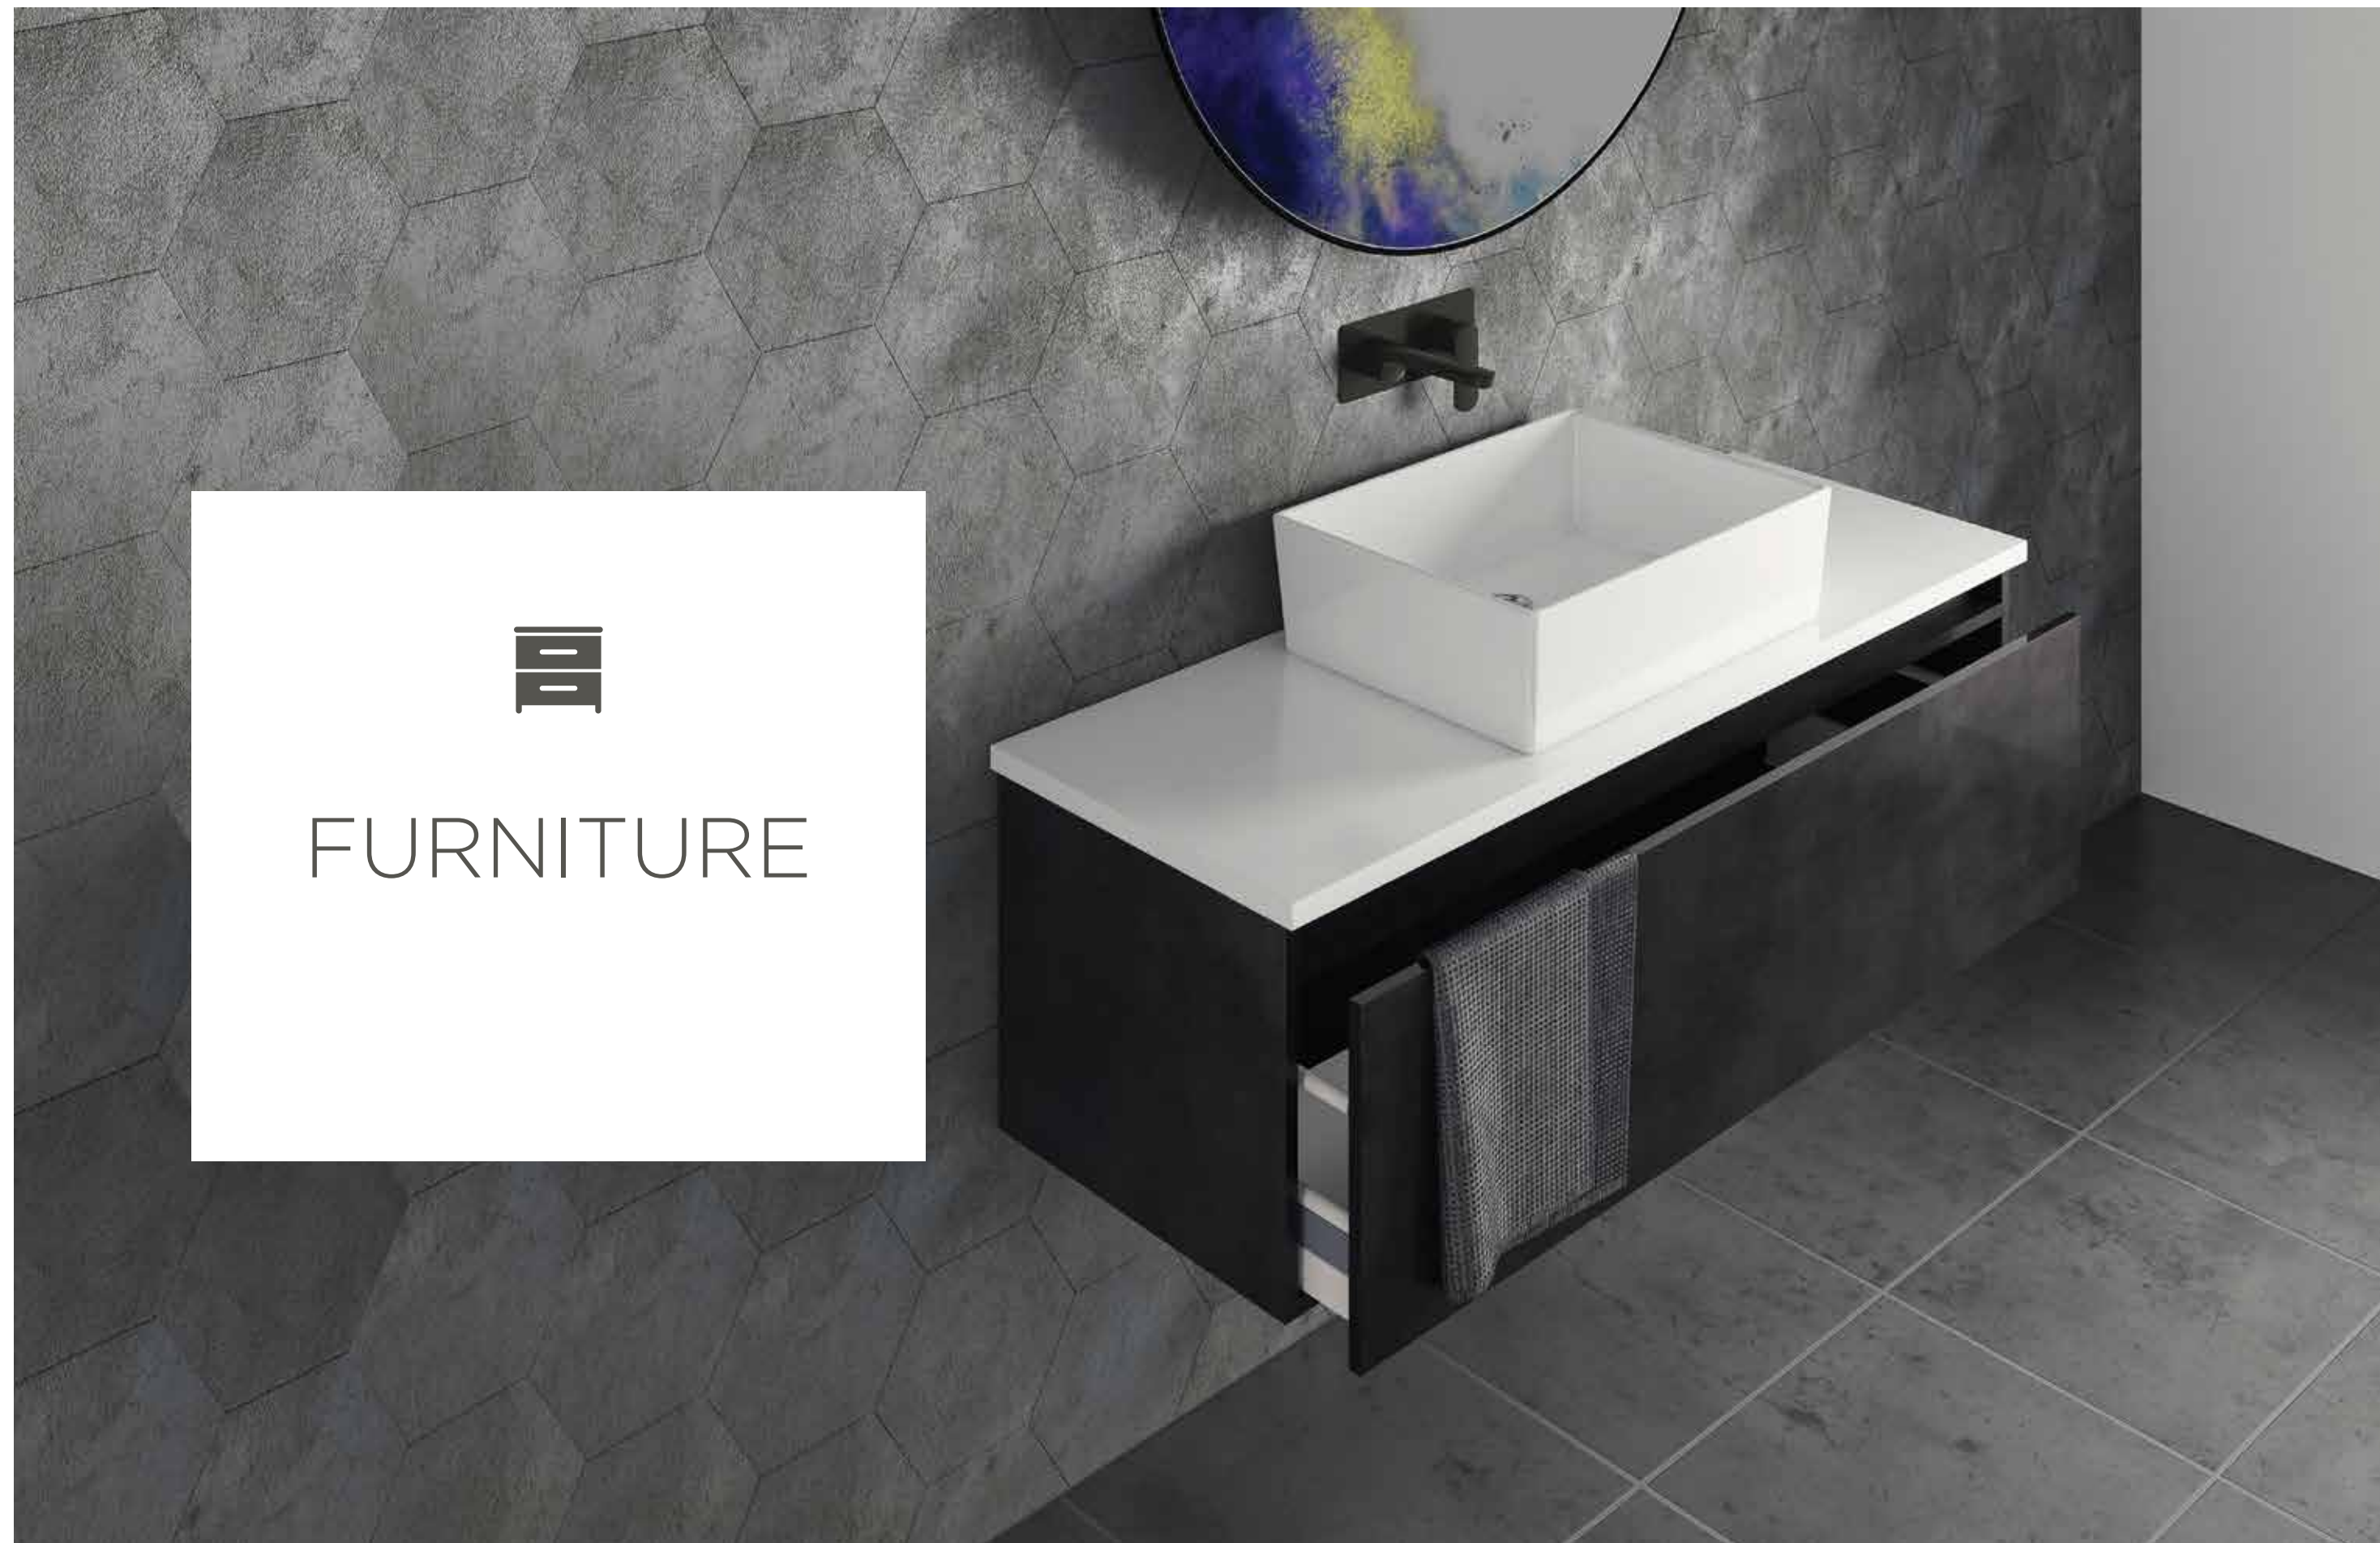

Designed by Meneghello Paoelli Associati, the Rombo and Millerighe represent a new generation of washbasins inspired by textile manufacturing, where a 3D fabric texture is applied.

The Millerighe basin texture is representative of vertical padding, while the Rombo features a quilted texture with golden finish (also available in white ceramic), turning the washbasin into a versatile piece which will suit any interior design schemes, from classic to contemporary.

FURNITURE

GLAMOUR AND A TOUCH OF CLASS

The Rubi vanity collection from ELEMENTI features a clean, simple, minimalist design with the high-gloss Luxe finish adding glamour and a touch of class to your new bathroom design.

The ELEMENTi furniture collection features Bestwood and Luxe quality finishes.

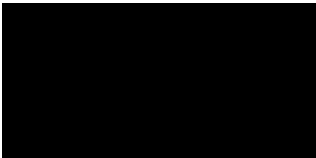

Incorporating the latest trends with a sophisticated range of colours and wood grains, Bestwood delivers a tough, scratch-resistant surface for a modern look that won't streak or craze.

The Rubi collection features Luxe glass like lacquer gloss finishes, manufactured with a complete melamine covering and protective edge banding to meet ISO certification.

PRODUCT FEATURE

VITREOUS CHINA OR
A POLYMARBLE BASIN?

Vitreous china is a natural product, produced and hand finished from a fine clay that is then kiln fired and treated with a durable porcelain glaze.

Being mechanically engineered from a mix of resin and marble powder, man-made Polymarble has a more precise, perfectly flat finish which makes it preferred for situations where tiles are placed up to the edge of the vanity top.

FINISHES: Select your finish code below (e.g. 440 Studio Plus Black Wilderness: 85300.60). For larger swatch samples refer to page 40.

POLYMARBLE CODE: 85429 + FINISH

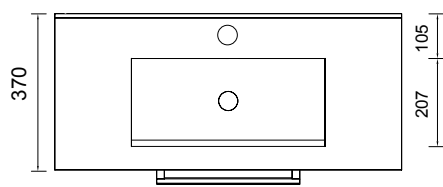

PRODUCT FEATURES

VITREOUS CHINA OR A POLYMARBLE BASIN?

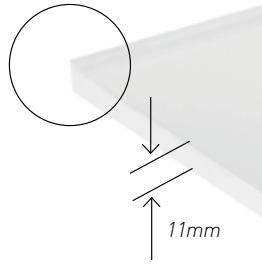

Vitreous china is a natural product, produced and hand finished from a fine clay that is then kiln fired and treated with a durable porcelain glaze.

Being mechanically engineered from a mix of resin and marble powder, man-made Polymarble has a more precise, perfectly flat finish which makes it preferred for situations where tiles are placed up to the edge of the vanity top.

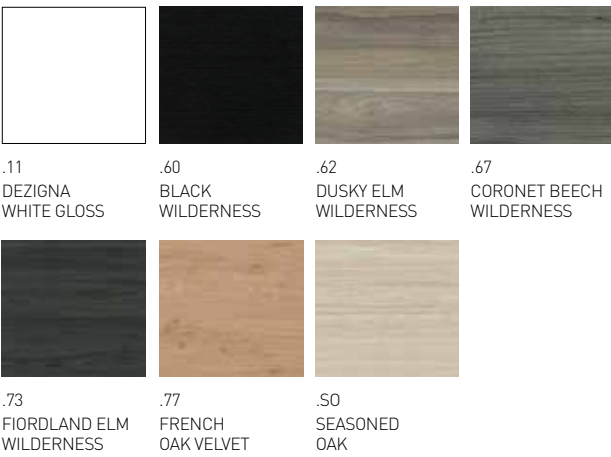

PERFECT FOR SMALLER SPACES

Today, living space is the ultimate luxury. And it's often in the bathroom that space becomes a real issue. In a small bathroom, the Slim II vanity proves a real space saver. The shorter projection (370MM) of the vanity leaves a larger area in the middle of the room to turn around and use all the facilities with ease.

The new Slim II vanity also features a raised rear profile. As well as being designed for additional waterproofing.

FINISHES: Select your finish code below (e.g. 600 Slim II Black Wilderness: 85415.60). For larger swatch samples refer to page 40.

BASIN PROFILES

Vanity basins are available in either a square or curved basin profile. Solid flat vanity top options are also available for use with vessel or inset basins.

Square basin profile

Curved basin profile

Solid flat vanity top profile

VITREOUS CHINA VANITY BASINS

Each piece of our porcelain is made to the very highest standards, hand finished using natural vitreous china or fine fireclay. This is then finished with an advanced porcelain glaze for an ultra smooth, remarkably hard and highly scratch-resistant surface that is easy to clean, hygienic and won't rust, fade or discolour.

PORCELAIN GLAZED
VITREOUS CHINA

POLYMARBLE VANITY BASINS

Polymarble vanity tops are made from a mixture of polyurethane resin with a gel coat finish and uses marble powder to create strength and rigidity. It's effectively a man-made marble that is hygienic, durable and impact resistant.

DURABLE
POLYMARBLE

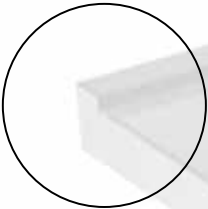

ADD YOUR OWN PERSONAL
VANITY TOP TOUCH

The Rubi vanity collection on page 44 allows you to also add your own unique top like the customer supplied marble vanity top pictured. The top dimensions are 750, 900, 1200, 1500 and 1800.

RAISED REAR PROFILE

A raised rear profile has been designed for additional waterproofing, as well as providing an ideal flat top surface for tiling up to.

The raised profile is available in Polymarble and Vitreous China.

RAISED
REAR PROFILE

HI-MACS® ACRYLIC WHITE STONE TOP

Using the most advanced fabrication technology sets HI-MACS® apart from other mineral materials and produces a stronger compound in which any structural defects are perfectly evened out.

Hygienic

Thanks to its impermeability to dirt, bacteria, viruses and countless chemicals, HI-MACS® is the ideal material for all areas where hygiene really counts.

Strong and Renewable

Stronger surface with durability similar to that of natural stone - HI-MACS® stands up to everyday scratches. Easy to care for and repairable properties, no matter if it's a scratch, stain or crack, HI-MACS® can be restored to its original state by a certified professional.

HI-MACS® ACRYLIC

CABINETS

Elementi vanities are made from a fine moisture resistant board designed to last and withstand the moisture and humidity within the bathroom environment.

Elementi vanities also incorporate a ventilation gap to reduce the risk of moisture build-up, as well as an extra thick 16mm cabinet back for extra strength (not applicable for Verona or Novara).

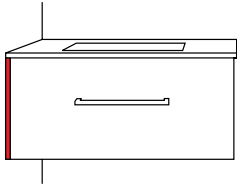

For durable edge finishing, a PVC edge tape is also applied. All wall cabinets also come with additional steel brackets for stronger fixing.

PREFINISHED MOISTURE
RESISTANT BOARD

VANITY PACKERS

Available in all our finishes as an additional extra designed to fit the gap beside the vanity and the wall when installed against a corner.

BATHS

SIMPLE, DEEP AND DOUBLE ENDED

The Vetralla is a contemporary double ended freestanding bath tub ideal for the modern bathroom.

PRODUCT FEATURE

VOLCANIC LIMESTONE. A SUPERIOR LONG-LASTING ALTERNATIVE TO CAST IRON AND ACRYLIC

A naturally superior bath: It may sound obvious, but not all baths are created equal. British brand Victoria + Albert are passionate about their unique Quarrycast® material, made from a finely ground volcanic limestone and resin mix.

Volcanic Limestone™ is Victoria + Albert's name for the very special white rock that is perfect for making baths and basins.

This is formed when the elemental forces associated with liquid magma act upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands.

Victoria + Albert blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix. The finished result is Quarrycast® - a world-class composite with an exceptional strength-to-weight ratio.

VETRALLA

A modern bath for a modern bathroom. Vetralla is deep and double-ended with generous volume.

ELDON

Eldon is the creation of leading British Architecture and Interior Design Studio, Conran + Partners, who have applied their expertise learned through designing some of the world's top hotels and residences.

The contemporary back-to-wall bath is endowed with the curvaceous lines of a freestanding bath. A full width tap deck hides all waste pipework and a moulded upstand allows tiles to be easily installed.

At 1749mm long, it's the perfect bathtub for bathrooms large and small where clean lines and day to day practicality are equally important.

MOZZANO II

A beautifully crafted rimless freestanding bath, designed with confident curves and ergonomic design, Mozzano II delivers a strong architectural presence in compact bathroom spaces.

A new feature of the Mozzano II is a void space underneath the bath for waste plumbing and P-Trap installation (depending on trap height). A reduced internal depth also allows for easier transfer in and out of the bath, makes bathing children effortless, and requires less water to fill.

ELEMENTI FEATURES

END WASTE

The Bella bath features an end waste, which is perfect for renovations and replacing an existing inset bath.

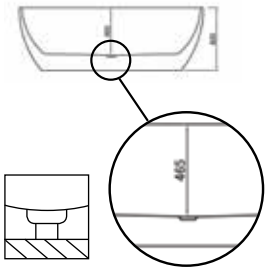

SQUARE BACK AND SIDE EDGE

The Otto bath features a square back and side edge allowing the bath to sit flush in a corner or against a wall.

ABOVE-FLOOR WASTE

All Elementi Freestanding Baths have above-floor wastes allowing for ease of installation.

DUPONT PURE ACRYLIC

The Domani, Marzo, Bella and Otto baths are produced from 100% cross-linked nonporous casted pure acrylic from DUPONT USA and tested to a 350kg weight limit.

VICTORIA + ALBERT QUARRYCAST® FEATURES

QUALITY

Volcanic Limestone™ is Victoria + Albert's name for the very special white rock that is perfect for making baths and basins.

This is formed when the elemental forces associated with liquid magma act upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands.

Victoria + Albert blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix. The finished result is Quarrycast® - a world-class composite with an exceptional strength-to-weight ratio.

STRENGTH

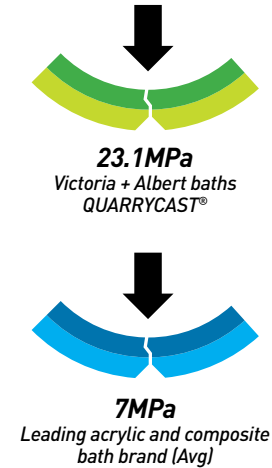

Being rich in Volcanic Limestone™, Quarrycast® is a unique composite that is more than twice as strong as other materials.

Absolute Safety
Have complete confidence

Rock Solid
No flexing or creaking

Design Freedom
With the ability to create beautiful forms, Quarrycast® has outperformed rival solid composites in strength tests conducted by independent material testing experts Lucideon*.

Mean modulus of rupture (MPa)

TEMPERATURE

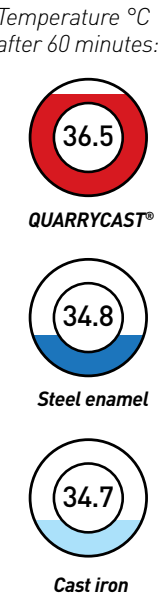

Unlike solid stone, Quarrycast® is warm to the touch, possessing superlative heat-retention properties.

More Comfortable
Warm to the touch

More Relaxing
Water stays warmer for longer

More Economical
Less water top-up

Quarrycast® surpassed alternative materials in laboratory tests on bath water heat retention, conducted by independent material testing experts, Lucideon*.

* Lucideon is an independent, international materials technology company that focuses on innovation, sustainability and quality assurance of materials. They are a UKAS accredited testing laboratory (No. 0013) in the UK and have Lucideon-approved laboratories around the world.

** IAPMO Research and Testing Laboratory provides full service, independent product testing at either their on-site laboratory (Ontario, USA) or at the manufacturer's facility.

EXTERNAL PAINT FINISH

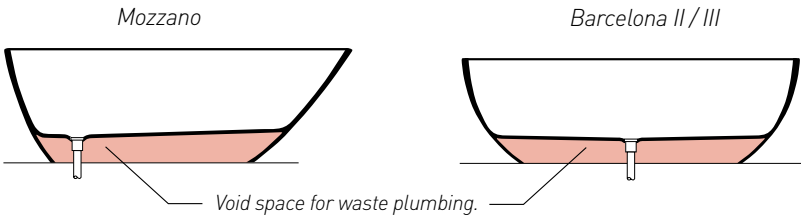

Having a smooth exterior surface, Quarrycast® baths and basins are easy to decorate using either oil or water-based paints.

VOID SPACE

A new feature of the Mozzano II, Barcelona II and III is a void space underneath the bath for waste plumbing and P-Trap installation (depending on trap height). This removes the need to make a hole in the floor to accommodate the waste.

A reduced internal depth also allows for easier transfer in and out of the bath, makes bathing children effortless, and requires less water to fill.

TAPWARE

DISTINCTIVE FORM

The distinctive cylindrical form of the UNO tapware collection encapsulates both modern styling and timeless appeal.

CHROME:
VELE-348C3

ELEMENTS 2 OUTLET
THERMOSTATIC SHOWER MIXER

150(W) X 300(H)
CHROME:
VELE-128C-20

PRODUCT FEATURE

WHAT ARE THERMOSTATIC MIXERS
AND WHAT ARE THE BENEFITS?

A thermostatic shower allows you to control your shower to a precisely desired temperature. As the temperature valve is separate from the flow valve, one can be adjusted without affecting the other. A thermostatic valve can be identified as it will have a -38°+ etching/markings.

COMFORT

A necessary element to a high-spec shower enabling you to enjoy the entirety of your shower at a consistent temperature. Switch the shower off and it will keep the exact temperature for next time. Also a must when there are two or more outlets in the shower – the valve will temper the water for all outlets.

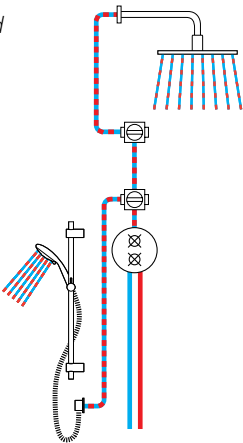

SAFETY

Sudden changes or fluctuations in water supply or temperature can cause falls and scalding, which is particularly dangerous for children and elderly.

THERMOSTATIC
FUNCTIONS

THERMOSTAT WITH
INDIVIDUAL STOP VALVES

Incorporated diverter valves allow you to switch between various outlets with the ability to have all outlets in use at the same time.

MAINS PRESSURE

Mains pressure water system means that the cold water and the hot water pressure is high (generally 350-500kPa). When the hot water is fed through a mains pressure hot water cylinder, a mains pressure only tap or multi-pressure tapware can be used.

MULTI-PRESSURE

An unequal water system means that the cold water pressure is higher than the hot water pressure. In most cases the hot water could be as low as 35-120 kPa and fed through a low pressure hot water cylinder, while the cold water pressure may be 500kPa. This type of pressure system requires a tap suited to multi-pressure.

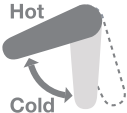

5 YEAR GUARANTEE ON ELEMENTI FINISHES

Elementi now offer a 5 year guarantee on the finishes of ION and UNO tapware. Terms and conditions apply.

5 FIVE YEAR GUARANTEE ON COLOURED FINISHES

ECO HANDLE

Releases cold water instead of warm water upon lifting the lever. This saves you precious energy as it prevents the boiler from heating up, resulting in up to a 30% energy saving.

The Acacia Evolution Universal box (U-Box) is suitable for different types of walls from thick to dry walls, as well as pre-fabricated housing systems.

Easy to install and maintain, this concealed installation provides greater flexibility for anyone building, planning or just looking to renovate.

ELEMENTI MULTI-PRESSURE SHOWER VALVES

The Uno, Ion and Verona shower mixers also feature a multi-pressure valve that has been designed for New Zealand water pressures. It can easily be adjusted to balance your hot or cold flow rates, making the most of all your water flow to improve your showering experience.

MULTI-PRESSURE VALVE TECHNOLOGY

PATENTED CERAMIC DISC VALVE TECHNOLOGY

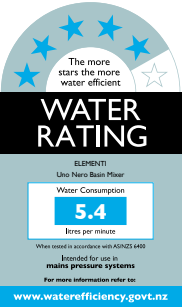

DRIP FREE GUARANTEE FOR LIFE OF MIXER*

DRIP FREE GUARANTEE

American Standard ceramic discs are extremely durable and keep going long after your old washer has ran out, eliminating the waste of a dripping tap. Robertson offer a Limited Lifetime Drip Free Guarantee on all ceramic cartridges used in American Standard single-lever mixers.

WELS RATING SYSTEM

The New Zealand Water Efficiency Labelling Scheme (WELS) is intended to assist your purchasing decisions, to save you money, and promote water conservation. The WELS rating is indicated by the number of stars shown; the more water efficient the product is. The WELS rating also provides information on the average flow rate for products when tested at various pressures.

4 Stars ★★★★★

More than 6.0 but not more than 7.5 litres per minute.

5 Stars ★★★★★

More than 4.5 but not more than 6 litres per minute.

6 Stars ★★★★★★

More than 3 but not more than 4.5 litres per minute.

CLEAN LINES

The stylish design of a back-to-wall toilet suite, combines clean lines and a minimalist aesthetic concealing all plumbing work and creating an easy to clean and hygienic solution.

PRODUCT
FEATURE

A SEAT ABOVE
THE REST

Discover refreshing comfort and a feeling of clean like never before. Unlike other e-bidets in the market, Pristine features two separate nozzles that provide independent front and rear cleansing with five adjustable positions. These nozzles clean themselves before and after every use, and are protected by a cover that prevents waste from contaminating them for a reassuring feeling of clean.

You will also appreciate the antibacterial protection that is applied on the seat, cover, nozzles and control panel for a truly relaxing feeling of clean.

MASSAGE
MASSAGE

The spray alternates between strong and mild sprays, creating a massaging effect that indulges the user.

DUAL
NOZZLES

Equipped with dedicated front and rear cleansing nozzles. Nozzles are also self cleaning with rinsing action.

NOZZLE
SHUTTER

A nozzle shutter prevents waste materials from getting to the nozzle tips, thus ensuring better hygiene.

SELF-CLEANING
NOZZLES

Nozzle tips are rinsed with water before and after every use.

QUICK-DETACH
SEAT COVER

The design of the seat cover allows it to be easily detached for convenient cleaning of hard-to-reach areas.

DRYER

Temperature adjusted for comfort with computer-memorized settings to retain user preferences.

DEODORIZER

Gets rid of odours and maintains freshness.

HEATED SEAT

Temperature can easily be adjusted for comfort.

ONE-TOUCH
CLEANSING

Suitable for both elderly and children, one-touch cleansing activates the posterior/feminine cleansing/dryer functions.

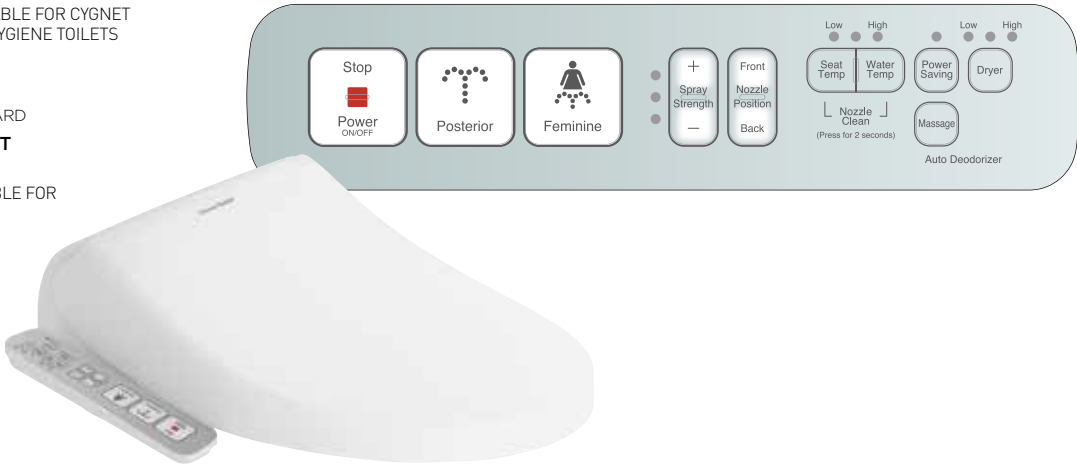

FEMININE AIR BUBBLE
SOFT CLEANSING

PNEUMATIC PUSH PLATES

When using the pneumatic option and installing the inwall cistern into a 90mm cavity. The push plate HAS to be installed remotely and clear of the tank. This will require an additional access panel for maintenance at least the same size as the cistern access portal. The cistern can be reversed so the maintenance panel can be in a different room or closet. Min distance from cistern 150mm, Max distance from cistern 2000mm.

TOILET TYPES

OVER HEIGHT (OH)
BACK TO WALL (BTW)
CC TOILET SUITE

With a pan and seat up to 40mm higher than standard toilets, the overheight toilet allows for easy transfer on and off the seat. This not only makes life easier as we increase in age, but is ideal for the elderly and those with restricted movement.

BACK TO WALL (BTW)
CC TOILET SUITE

The back to wall close coupled toilet suite adds a streamlined, modern look to any bathroom. Positioned flush with the wall, there is no gap behind and all waste and inlet pipes are concealed, with the cistern then positioned above the bowl.

CLOSE COUPLED (CC)
TOILET SUITE

The close coupled suite has the cistern fitted against the wall and the pan is positioned away from the wall. The gap between the wall and the pan varies according to the model.

MONOBLOCK
BTW CC TOILET SUITE

The monoblock toilet is one piece with the cistern and pan being formed together.

BACK TO WALL (BTW)
TOILET PAN

The back-to-wall toilet pan has an in-wall cistern and a fully concealed waste which hides exposed pipes. The back-to-wall pan runs all the way to the wall and is easy to clean with smooth, seamless lines.

WALL HUNG (WH)
TOILET PAN

The wall hung toilet is mounted to a bracket in the wall. It takes up less space than a traditional unit and with an in-wall cistern, provides a clean, uncluttered appearance.

E BIDET

An E-bidet (electronic bidet seat) requires an electrical point and comes with additional comfort features such as massage cleansing, warm water cleansing, heated seat and dryer, and is operated via a side control panel or a remote control.

S TRAP OR P TRAP?

P Trap

The term P trap indicates that the outlet (waste) pipe goes through the wall.

S Trap

The term S trap indicates that the outlet (waste) pipe goes through the floor.

NOTE: Your choice of S or P trap will depend on availability of access through the floor or wall.

TOILET FEATURES

American Standard

SOFT CLOSING SEAT AND COVER

Gentle and quiet closing action.

ANTIBACTERIAL PROTECTION

Sanitary resin covers all essential touch points

OVERHEIGHT

Easy to get on and off, especially for the elderly, pregnant and disabled

RIMLESS CLEAN

Hygienic and easy to clean.

COMFORTCLEAN

Effectively Kills E Coli Bacteria.

COMFORT PUSH BUTTON

A larger surface area for ease of use.

COMFORT CURVE SEAT

An ergonomic fit that comfortably contours to the body.

EASY RELEASE

Easy removal for thorough cleaning.

SKIRTED DESIGN

Premium design allows for quick and easy exterior cleaning.

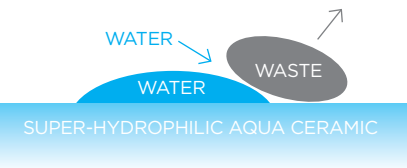

DOUBLE VORTEX

Unlike other toilets, the Double Vortex system flushes 100% of the water at once through two water openings positioned at the top of the bowl, creating two powerful whirlpools that flush waste away while cleaning the entire surface of the ceramic bowl leaving nothing behind. The improved flush also uses less water with 4 litres for full flush and only 3 litres for half flush.

AQUA CERAMIC*

Aqua Ceramic material is a milestone in the history of ceramics. Stubborn soil washes away with a simple flush. The smooth, stain-repellant surface prevents unsightly hard water build-up and spots, so the bowl stays fresh and gleams like new after cleaning. Aqua Ceramic technology allows water to adhere to the ceramic surface so that during a flush, water is able to penetrate beneath any waste that is attached to the ceramic. Waste will then be easily lifted and carried away by the water.

PROGUARD*

Proguard, which is applied to the ceramic, prevents silica in the water from adhering to the surface, inhibiting the build-up of water stains.

Traditional toilet Proguard toilet

PRISTINE E-BIDET SEAT

ONE-TOUCH CLEANSING

Suitable for both elderly and children, one-touch cleansing activates the posterior/feminine cleansing and dryer functions at a touch of a button.

FEMININE AIR BUBBLE SOFT CLEANSING

A gentle flow of warm aerated water with air bubbles provide a soothing shower.

MASSAGE

The spray alternates between strong and mild sprays, creating a massaging effect that indulges the user.

DUAL NOZZLES

Equipped with front and rear cleansing nozzles. Nozzles are also self cleaning with rinsing action.

HEATED SEAT

Temperature can easily be adjusted for comfort.

QUICK-DETACH SEAT COVER

The design of the seat cover allows it to be easily detached for convenient cleaning of hard-to-reach areas.

NOZZLE SHUTTER

A nozzle shutter prevents waste materials from getting to the nozzle tips, thus ensuring better hygiene.

DEODORIZER

Gets rid of odours and maintains freshness.

SELF-CLEANING NOZZLES

Nozzle tips are rinsed with water before and after every use.

DRYER

Temperature adjusted for comfort with computer-memorized settings to retain user preferences.

PARISI

EASY CLEAN ANTI-BACTERIAL PROTECTION

Active silver ions are baked into the ceramic glaze, dramatically decreasing the build-up of bacteria.

SOFT CLOSE AUTOMATIC CLOSURE SYSTEM

Just a fingertip touch and the lid closes all by itself, gently and silently.

SIDE PROJECTION FLUSHING SYSTEM

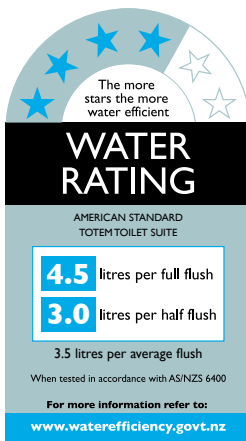

The innovative design of the Parisi Ellisse MKII, Linfa and Slim rimless toilet projects water rather than the traditional flushing mechanism where water pours down the rim. Through the powerful delivery of water and open-rim design, maximum cleaning of the inner bowl is achieved while preventing water from splashing over the edge.

WELS RATING SYSTEM

The WELS rating is indicated by the number of stars displayed; the more stars shown, the more water efficient the product is.

3 Stars ★★★
Allows for a 6 litre large flush and 3 litre half flush.

4 Stars ★★★★
Allows for a 4.5 litre large flush and 3 litre half flush.

SHOWERS

MORE PLEASURE IN YOUR SHOWER

AMERICAN STANDARD has launched the award-winning Genie pressure booster hand shower to cope with low water pressure situations.

PRODUCT FEATURE

WHERE COMFORT MEETS CONVENIENCE

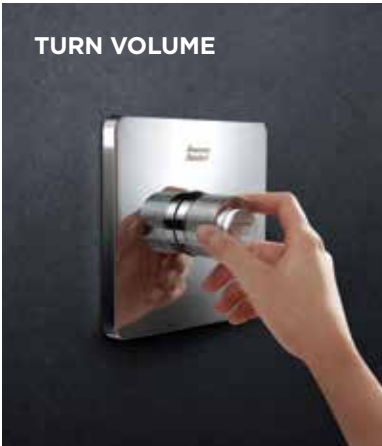

Indulge in the ultimate showering experience that never forgets your preferred water source, temperature and volume of your perfect shower.

With the convenient push of a button, you can experience a cascading shower head or invigorating hand shower with body jets, all while maintaining control of the water volume with an easy turn of the dial.

Once you've selected the desired water volume using the intuitive dial, there's no need to reset it again. For an even more fuss-free experience, you can install the PreSet control outside your bathroom and activate it with just one easy push before stepping into your shower.

If you plan to have hand showers, overhead showers and body jets all in one bathroom, EasySET gives you the flexibility to configure your dream shower so that it looks as good as it feels. The intuitive showering icons let you see exactly which EasySET option controls each shower outlet.

The EasySET thermostatic mixer provides a constant showering temperature, while the safety temperature control and auto shut-off function prevents accidental scalding should the cold water supply fail.

PRODUCT
FEATURE

MORE PLEASURE IN YOUR
SHOWER REGARDLESS OF
PRESSURE WITH GENIE

AMERICAN STANDARD has launched the award-winning Genie pressure booster hand shower to cope with low water pressure situations.

Unlike other hand showers in the market, the back cover of the Genie is designed to be easily detached for cleaning and simple removal of any slime or mineral deposit build up.

Genie is the epitome of modern simplicity in its design. Made of polycarbonate for durability, it is available in three colours – aquamarine, petal pink, and steel grey.

PETAL PRESSURE WATER FLOW

Micro pin holes ensure robust yet gentle water flow (petal pressure) even when using low pressure.

HAND SHOWER BODY

Uniform white semi-gloss finish with rounded edges for a modern look and ease of use.

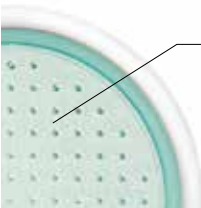

UNIVERSAL
OPENING SYSTEM

Key lock system for easy clean access and a secure fit during use.

BACK COVER

Removable transparent cover to allow for easy clean access

TRANSPARENT
FACE PLATE

Made out of frosted plastic to allow clean water to be visible as you shower.

SHOWER SPRAY OPTIONS

ELEMENTI SHOWERS

AMERICAN STANDARD RAINCLICK

MIXING AIR AND WATER

ELEMENTI AQUA AIR TECHNOLOGY

Hear the water savings with an audible and invigorating shower as Aqua Air Technology adds a significant amount of air to the water. The individual water drops are inflated by air to a larger volume. This increases the exit velocity of the water significantly. The result: a pleasant, soft spray even while using up to 50% less water.

AMERICAN STANDARD AIRNERGIZE SHOWERING

The elements of air and water are great gifts from nature. Thanks to Airnergize technology, which infuses water droplets with air, you are wrapped in a full shower spray and still assured of reduced water usage.

HAND PIECE SLIDERS

Our shower collection features 3 types of hand piece sliders.

LEVER SLIDER

Move lever to adjust slider to adjust hand piece height.

TWIST SIDE SLIDER

Twist side to adjust slider and hand piece height.

CENTRE SLIDER

Push button adjustment slider that allows hand piece to be positioned centre of rail (not offset). Perfect for over-the-bath applications.

WATER INLETS

TOP:

Water fed directly into top fixing.

REAR:

Water fed directly into the shower rail.

WALL ELBOW:

Water fed from separate elbow.

ADJUSTABLE FIXATION

Ideal for renovations, many of our slide rails have adjustable fixings allowing you to fit existing fixings of the slide shower you are replacing.

HOSE TYPES

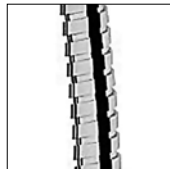

2 types of shower hose are featured.

SMOOTH HOSE

Smooth easy-clean hose with watertight seal and anti-twist feature.

FLEXI HOSE

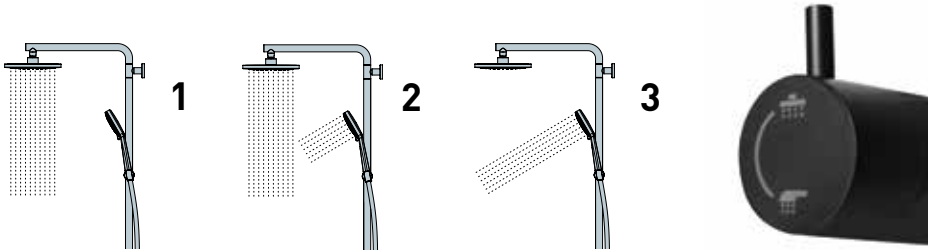

Flexible ribbed hose in chrome or black finish.

1+2+3 SHOWERING EXPERIENCES

With the unique multi-function diverter handle you can choose from 3 showering experiences.

- 1) Shower head only
- 2) Both shower head and hand shower at the same time
- 3) Hand shower only

SHOWER ENCLOSURES

USER FRIENDLY DESIGN

A more user friendly extended height shower enclosure and Easy Clean NANO glass technology are just two of the features that make Verona a quality product designed to suit your every need.

Designed to make a statement in any bathroom, Elementi shower enclosures are strong, durable and stylish. From the premium chrome detailing to invisible fixings, design has been considered down to the last detail.

Plus with 8 different configurations to choose from, you'll find the right enclosure to fit your space. All are easy to install and effortless to maintain with ranges featuring Easy Clean Nano Protected Glass Technology, plus come complete with a 10 year guarantee for added peace of mind.

VERONA SELECT

WHAT'S LIFE WITHOUT A LITTLE LUXURY?

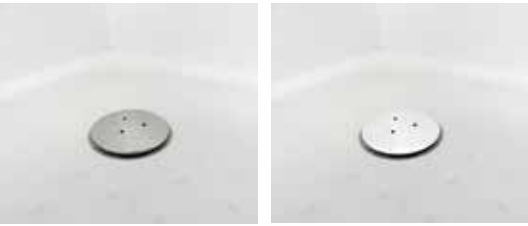

For a sleek contemporary finish, the new Verona Select shower tray features a rectangular grate with 3 finish options included for you to choose the finish that best suits your taste and your bathroom.

VERONA

DESIGNED FOR EVERYDAY LIVING

Style without the price tag. Incorporating an anti-slip texture with either a chrome or white circular waste plate gives Verona a modern and functional design suited for everyday living.

ACCESSORIES

EASY TO CLEAN WASTE

All Elementi shower trays are designed to take a 90mm waste that includes both a white and chrome face plate.

Side exit
Inlet/Outlet size: 90mm / 40mm
Overall height: 117mm (from tray top)
Hole saw floor: 130mm

MOULDED WALL

Elementi enclosures have the option of a moulded wall that has been designed to be reversible. This allows the flexibility to have the mould recess installed on either the left or right hand side of your shower.

Overall size: 500W x 950H x 80D
Large shelf size: 440W x 250H
Small shelf size: 440W x 130H
Mould edges: 30mm thick

SET OF 2:
11390.00

GLASS SHELVES

The Elementi glass shelves look contemporary and modern in any shower. Easy to install and keep clean. Both shelves meet the AS/NZS2208 standard to ensure safety and quality.

Large shelf size: 250 x 250 x 10
Small shelf size: 200 x 200 x 10

EASY CLEAN NANO PROTECTED GLASS TECHNOLOGY

Nano glass has been specially developed using advanced Nano technology creating a non-stick surface. This award winning technology makes glass easier to clean and resists staining and discolouration. Simply Squeegee and walk away with no need for harsh abrasives on the glass.

ORDINARY GLASS NANO GLASS

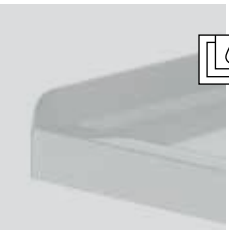

SAFETY SHOWER GLASS

To ensure ultimate safety, all Elementi shower enclosures are fitted with toughened 6mm safety glass doors to AS/NZS 2208 standard.

REAR UPSTAND

A 40mm upstand at the rear of the tray and interlocking side channels ensure water stays within the tray. Doors and liner are fitted within the tray so water flows back into the tray while in use.

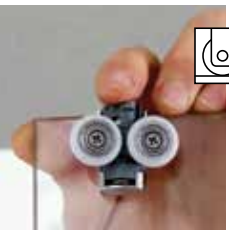

SAFETY LIP

A 5mm safety lip on the front edge of the tray creates more surface to silicone, preventing leakage from under the door or extrusion.

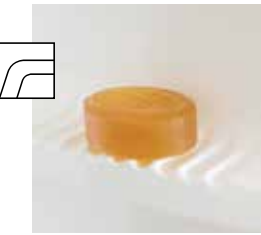

SMOOTH DOOR ROLLERS WITH EASY-CLEAN FITTINGS

Smooth running lockable stainless steel double top rollers and spring-loaded double bottom rollers on round enclosures provide effortless performance. Doors are also fitted with magnetic seals. Removable rollers and door seals also allow for easy cleaning.

WEIGHT TESTED REINFORCED TRAY

A stronger timber and fibreglass commercially reinforced tray ensures self-supporting rigidity tested to 200kg.

QUALITY EUROPEAN ACRYLIC LINER

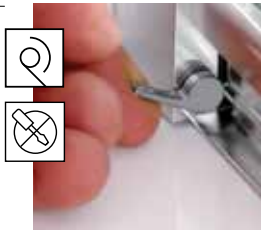

Unlike pure acrylic and cheap wall liners, European Sanitary Grade Capped ABS Acrylic 2mm sheet is more stable, high gloss, impact and scratch resistant and has excellent moulding capabilities. The liner is available in either a Flat Wall or a Moulded Wall option with 4 compartments.

A TALLER SUPERIOR DOOR

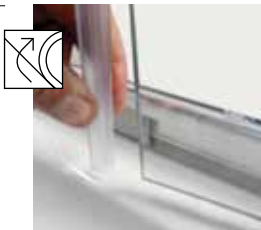

Having a 1950mm high door is more user friendly for taller people and allows a higher position for the shower rose. Doors are also fitted with large chrome handle

All Elementi shower liners are also extended height.

SIMPLE INSTALLATION WITH PATENTED QUICK FIX SYSTEM

New patented locking technology eliminates the need for drilling holes and using fixing screws to hold the shower door to the wall profiles. With a simple push of the lever your Elementi shower is locked and fitted into place. This patented design will save you time and money.

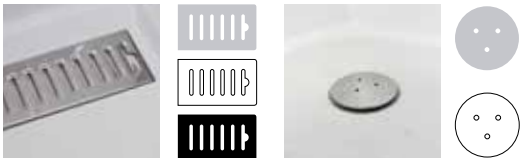

EASILY REMOVEABLE SEALS

High quality shower seal strips are easily removeable for cleaning or replacement.

CHOOSE FROM 2 TRAY WASTE OPTIONS

Verona Select / Grate Waste
Finishes: Chrome, White, Black

Verona / Round Waste
Finishes: Chrome, White

TEN YEAR GUARANTEE

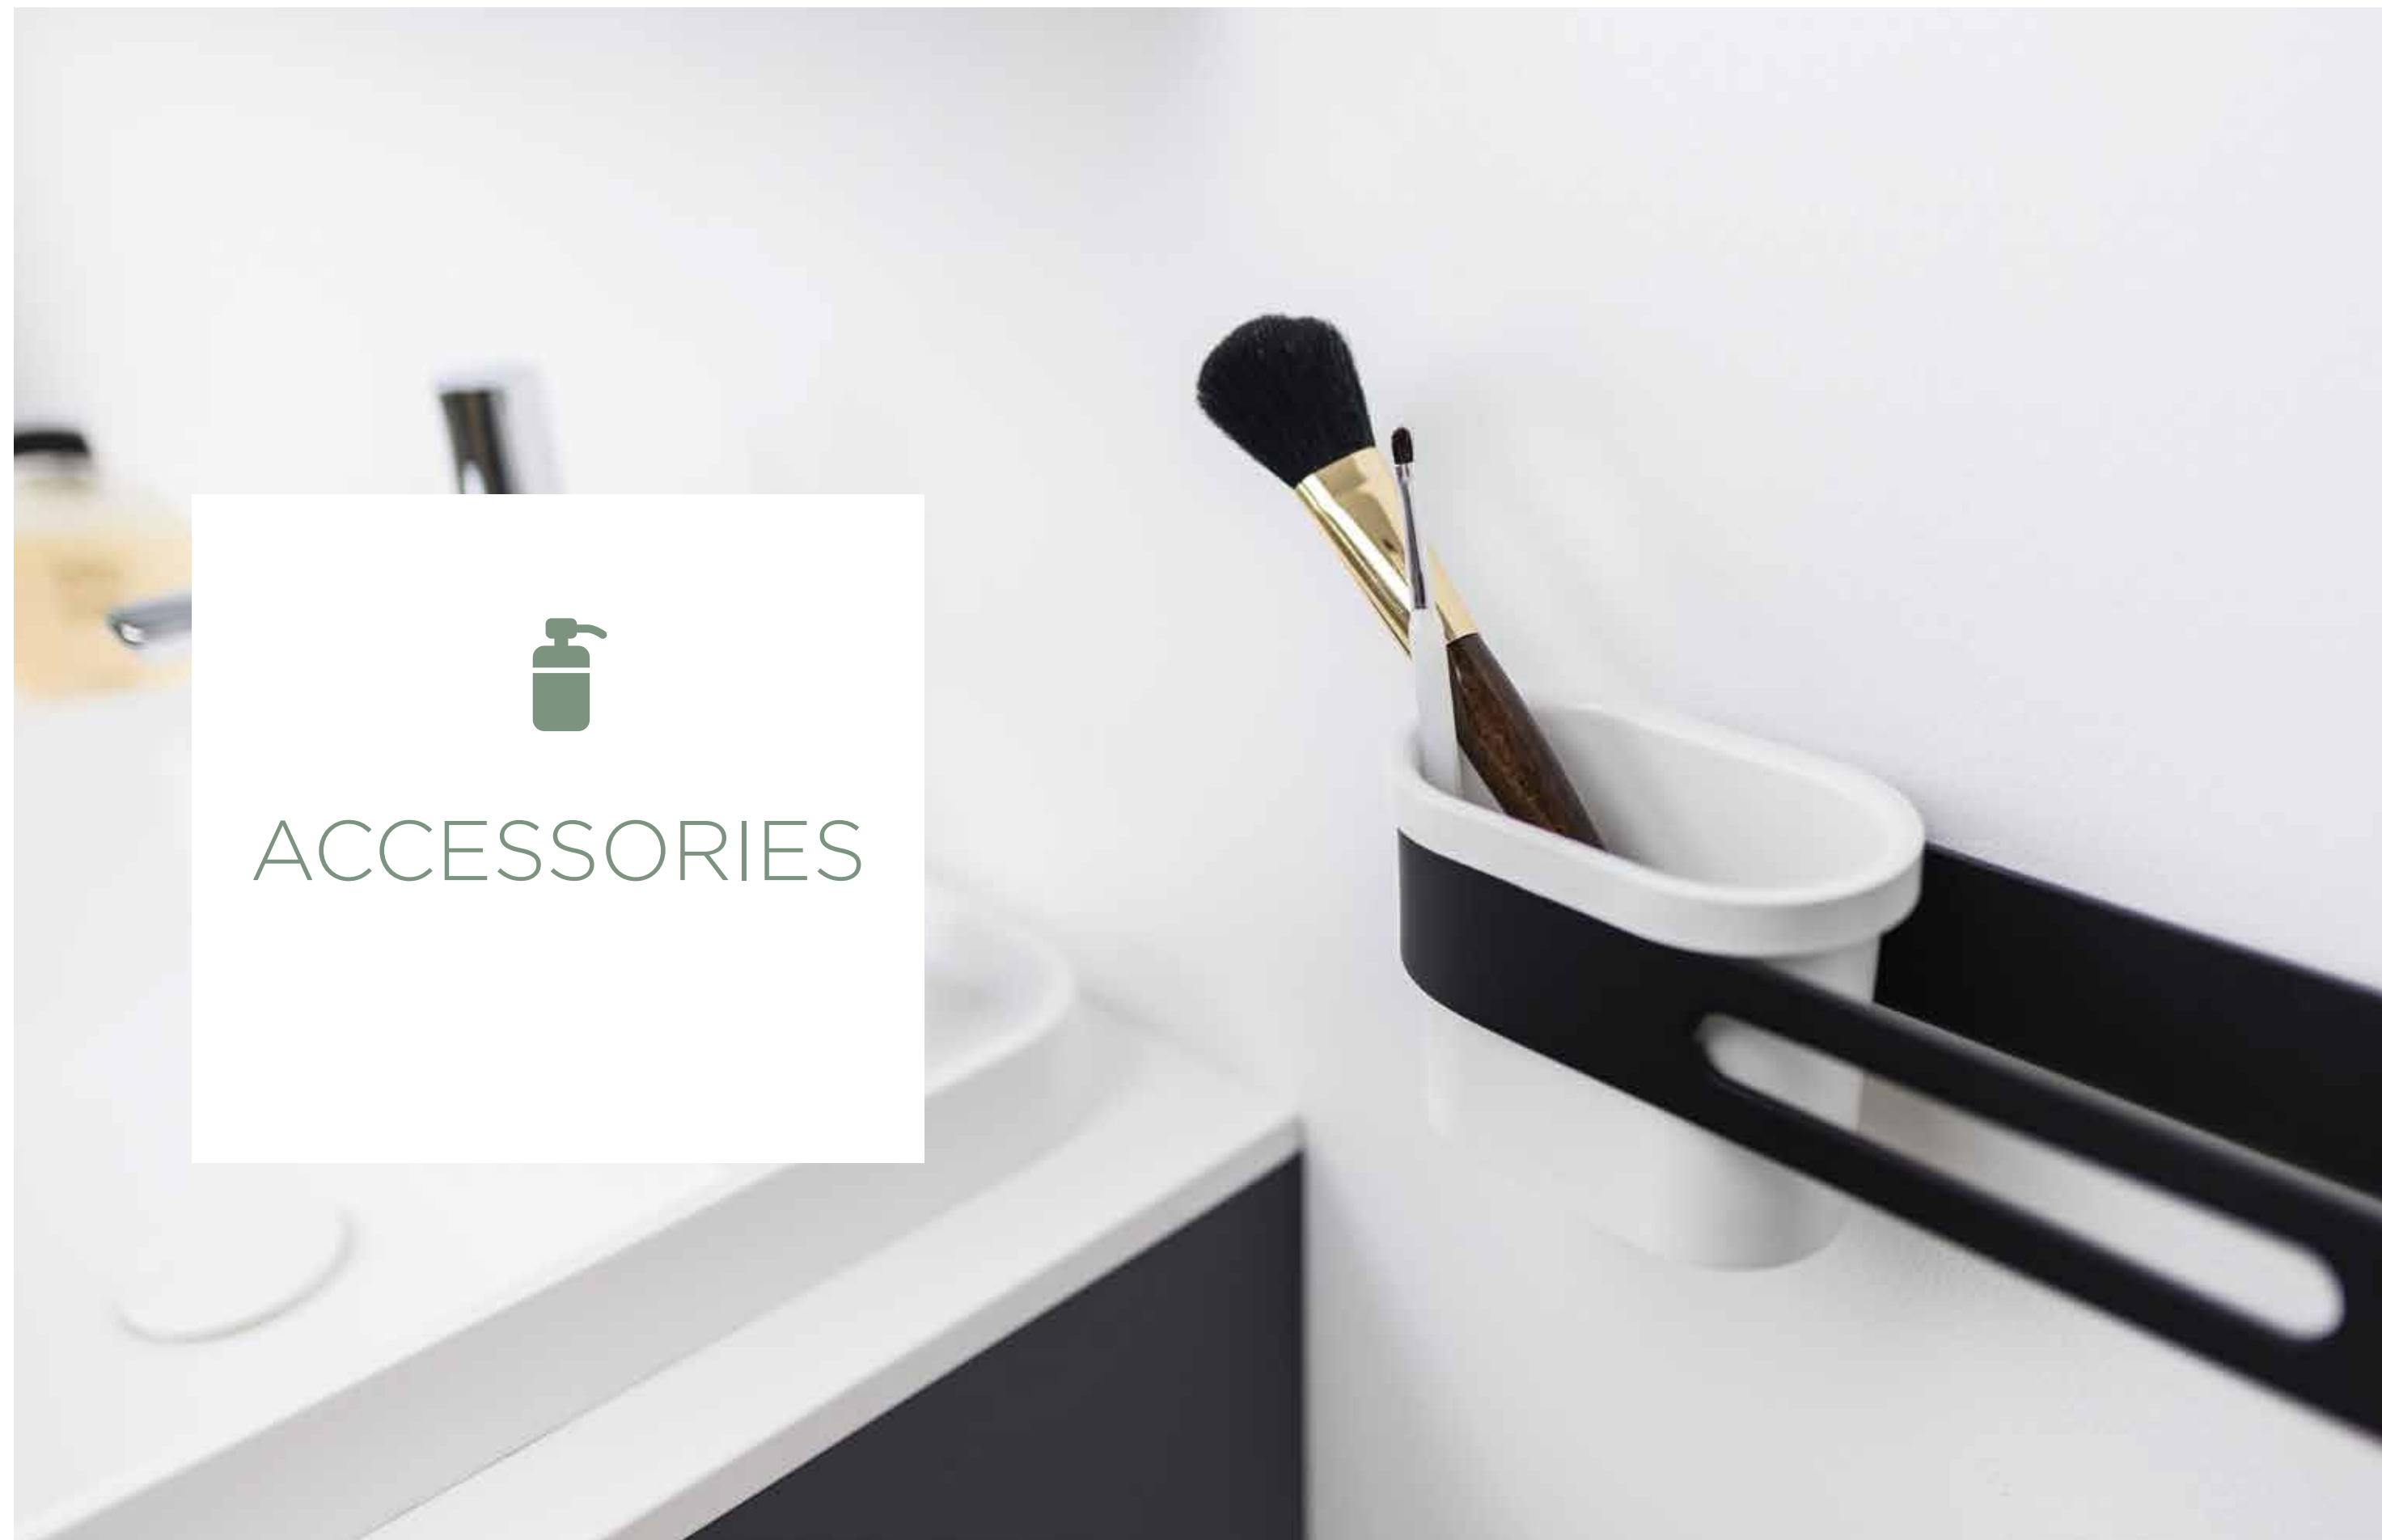

As you would expect from Elementi, all shower enclosures exceed all safety, functionality and performance tests within current New Zealand Standards. All enclosures are backed up by a 10 year guarantee for added peace of mind.

 PULL-OUT SPRAY A pull-out spray increases operating radius of the mixer and offers different sprays. Uno kitchen mixers feature 2 spray options: Standard and Vege.	 MAINS PRESSURE Mains pressure water system means that the cold water and the hot water pressure is high (generally 350-500kPa). When the hot water is fed through a mains pressure hot water cylinder, a mains pressure only tap or multi-pressure tapware can be used.	WELS RATING SYSTEM The WELS rating is indicated by the number of stars displayed; the more stars shown, the more water efficient the product is. 4 Stars ★★★★★ More than 6.0 but not more than 7.5 litres per minute. 5 Stars ★★★★★ More than 4.5 but not more than 6 litres per minute. 6 Stars ★★★★★★ More than 3 but not more than 4.5 litres per minute. 
 	 MULTI-PRESSURE Unequal water system means that the cold water pressure is higher than the hot water pressure. In most cases the hot water could be as low as 35-120 kPa and fed through a low-pressure hot water cylinder, while the cold water pressure may be 500kPa. This type of pressure system requires a tap suited to multi-pressure.	
 SWIVEL SPOUTS Smooth movement of swivel spouts offer easy handling.	 550MM HOSE TAILS The Lavare laundry mixers are specifically designed for the laundry with longer 550mm hose tails for hassle free connection.	DRIP FREE GUARANTEE American Standard ceramic discs are extremely durable and keep going long after your old washer has ran out, eliminating the waste of a dripping tap. Robertson offer a Limited Lifetime Drip Free Guarantee on all ceramic cartridges used in American Standard single-lever mixers.  DRIP FREE GUARANTEE FOR LIFE OF MIXER*

OUR GUARANTEES

Without exception Robertson products are guaranteed to meet or exceed the standard requirements for the New Zealand building code.

In addition to specific guarantees provided, all products imported and or sold by Robertson are, to the extent applicable, guaranteed in accordance with the Durability Clauses of the New Zealand Building regulations and Consumer Guarantees Act.

Our guarantees apply only to products imported and sold by Robertson. These guarantees do not cover products sold by Robertson under any other agency, company or brand name. As part of our ongoing commitment to continuous improvement, Robertson NZ Ltd reserves the right to make changes to its products at any time.

All guarantees are subject to the following terms and conditions and to the Robertson NZ Ltd Terms of Trade available on request. A copy of which can also be found at ROBERTSON.CO.NZ.

The guarantee is against manufacturing defects only.

All products must be checked to see they are in good order and condition prior to installation.

This guarantee does not cover products that have been damaged by misuse, accident or neglect.

This guarantee may not cover the cost of removal or installation.

This guarantee is applicable to toilets, basins, tapware, shower outlets, baths, bathroom accessories, installed in domestic residential situations and or light commercial situations such as kitchens, bathrooms and laundries in motels, hotels and retirement villages.

This guarantee does not include commercial situations such as public washrooms and or kitchens and laundries in public buildings, schools, sports centres, gymnasiums and hospitals.

Bathroom vanities installed in commercial situations are not covered under guarantee.

This guarantee does not cover normal wear and tear.

The use of some cleaning products will void the guarantee. Refer to manufactures recommended cleaning instructions or download cleaning guide from Robertson website.

This warranty is personal to the first end user and is not transferable unless stated.

Each and every warranty claim must be accompanied by the original proof of purchase.

Products must have been installed in accordance with the manufactures instructions and in accordance with local City or Council Standards requirements.

Products must have been cleaned as per manufacturer's recommendations. A copy of our Product Care Guide can be downloaded from our website.

Products must have been maintained in good order and condition and serviced in accordance with manufacturers' recommendations.

Robertson reserves the right to determine any issue or uncertainty in connection with the warranty.

Robertson reserves the right to repair and or replace the defective product and or component at its discretion or nearest equivalent if a product needs to be replaced.

All Warranty covered repair work is to be performed by a Robertson representative and or authorised service agent or plumber who has received an authorisation number to attend the job.

This guarantee does not purport to exclude or limit your rights under the Consumer Guarantees Act which will not apply to consumers acquiring goods other than "in trade". If you acquired the products "in trade" you agree that the Consumer Guarantees Act does not apply.

EXTENDED GUARANTEES

American Standard

Limited Lifetime Drip Free Guarantee on all ceramic cartridges used in American Standard single-lever mixers.

This is a genuine product guarantee and is therefore transferable to a new owner but is subject to providing the original proof of purchase.

INSTALLERS ARE NOW LIABLE

Plumbers need to know that under the Consumer Guarantees Act (CGA) they are responsible for any product they supply AND/OR install.

If a Homeowner supplies a product which you believe is not up to the job, **you must say so**. If a product or service, provided by you, fails any of the CGA guarantees, the Consumer can ask for the job to be fixed at no extra cost. If the repair takes more than a reasonable time to fix, the Consumer can arrange the repair and claim the cost from you, or cancel

the job and refuse to pay for the work done. AND, if the work has caused other loss or damage, you may also be liable for consequential loss.

Always buy a recognised brand from a recognised merchant.
