

## BATHS

SIMPLE, DEEP AND DOUBLE ENDED

*The Vetralla is a contemporary double ended freestanding bath tub ideal for the modern bathroom.*

PRODUCT FEATURE

VOLCANIC LIMESTONE. A SUPERIOR LONG-LASTING ALTERNATIVE TO CAST IRON AND ACRYLIC

A naturally superior bath: It may sound obvious, but not all baths are created equal. British brand Victoria + Albert are passionate about their unique Quarrycast® material, made from a finely ground volcanic limestone and resin mix.

Volcanic Limestone™ is Victoria + Albert's name for the very special white rock that is perfect for making baths and basins.

This is formed when the elemental forces associated with liquid magma act upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands.

Victoria + Albert blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix. The finished result is Quarrycast® - a world-class composite with an exceptional strength-to-weight ratio.

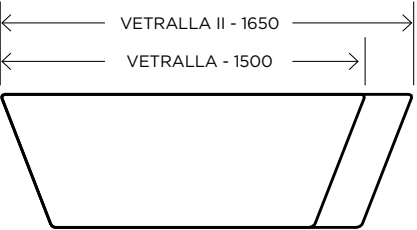

VETRALLA

A modern bath for a modern bathroom. Vetralla is deep and double-ended with generous volume.

**VETRALLA BATH**

AVAILABLE IN 2 SIZES

ELDON

Eldon is the creation of leading British Architecture and Interior Design Studio, Conran + Partners, who have applied their expertise learned through designing some of the world's top hotels and residences.

The contemporary back-to-wall bath is endowed with the curvaceous lines of a freestanding bath. A full width tap deck hides all waste pipework and a moulded upstand allows tiles to be easily installed.

At 1749mm long, it's the perfect bathtub for bathrooms large and small where clean lines and day to day practicality are equally important.

**ELDON BATH**

MOZZANO II

A beautifully crafted rimless freestanding bath, designed with confident curves and ergonomic design, Mozzano II delivers a strong architectural presence in compact bathroom spaces.

A new feature of the Mozzano II is a void space underneath the bath for waste plumbing and P-Trap installation (depending on trap height). A reduced internal depth also allows for easier transfer in and out of the bath, makes bathing children effortless, and requires less water to fill.

**MOZZANO II BATH**

ELEMENTI FEATURES

END WASTE

The Bella bath features an end waste, which is perfect for renovations and replacing an existing inset bath.

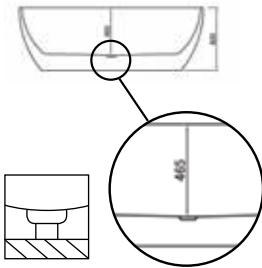

SQUARE BACK AND SIDE EDGE

The Otto bath features a square back and side edge allowing the bath to sit flush in a corner or against a wall.

ABOVE-FLOOR WASTE

All Elementi Freestanding Baths have above-floor wastes allowing for ease of installation.

DUPONT PURE ACRYLIC

The Domani, Marzo, Bella and Otto baths are produced from 100% cross-linked nonporous casted pure acrylic from DUPONT USA and tested to a 350kg weight limit.

VICTORIA + ALBERT QUARRYCAST® FEATURES

QUALITY

Volcanic Limestone™ is Victoria + Albert's name for the very special white rock that is perfect for making baths and basins.

This is formed when the elemental forces associated with liquid magma act upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands.

Victoria + Albert blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix. The finished result is Quarrycast® - a world-class composite with an exceptional strength-to-weight ratio.

25 Twenty Five Year Guarantee

STRENGTH

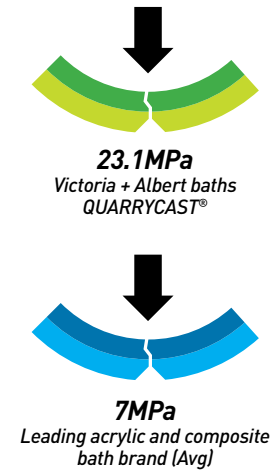

Being rich in Volcanic Limestone™, Quarrycast® is a unique composite that is more than twice as strong as other materials.

**Absolute Safety**  
Have complete confidence

**Rock Solid**  
No flexing or creaking

**Design Freedom**  
With the ability to create beautiful forms, Quarrycast® has outperformed rival solid composites in strength tests conducted by independent material testing experts Lucideon\*.

Mean modulus of rupture (MPa)

TEMPERATURE

Unlike solid stone, Quarrycast® is warm to the touch, possessing superlative heat-retention properties.

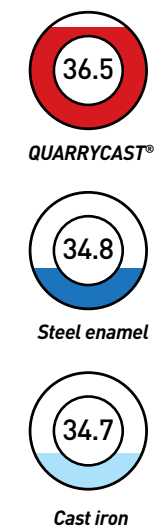

**More Comfortable**  
Warm to the touch

**More Relaxing**  
Water stays warmer for longer

**More Economical**  
Less water top-up

Quarrycast® surpassed alternative materials in laboratory tests on bath water heat retention, conducted by independent material testing experts, Lucideon\*.

Temperature °C after 60 minutes:

\* Lucideon is an independent, international materials technology company that focuses on innovation, sustainability and quality assurance of materials. They are a UKAS accredited testing laboratory (No. 0013) in the UK and have Lucideon-approved laboratories around the world.  
\*\* IAPMO Research and Testing Laboratory provides full service, independent product testing at either their on-site laboratory (Ontario, USA) or at the manufacturer's facility.

EXTERNAL PAINT FINISH

Having a smooth exterior surface, Quarrycast® baths and basins are easy to decorate using either oil or water-based paints.

VOID SPACE

A new feature of the Mozzano II, Barcelona II and III is a void space underneath the bath for waste plumbing and P-Trap installation (depending on trap height). This removes the need to make a hole in the floor to accommodate the waste.

A reduced internal depth also allows for easier transfer in and out of the bath, makes bathing children effortless, and requires less water to fill.
