ALBERTO  
AND  
FRANCESCO  
MEDA  
INTRODUCE  
**MEDAMEDA**  
OBJECTS  
WITH  
SIMPLE  
UNIFIED  
STYLE

*Medameda, designed by Alberto and Francesco Meda, is reassuring and composed: 'We try to come up with objects with simple, unified style; objects that aren't too loud', stated the designers. 'We avoid formal extravagance in favour of special attention to effective relationships between the different components of the items and then between the items and those who use them'. This has given rise to an object with organic, flowing lines, never over designed, a piece that owes its universal appeal also to the interaction between the two generations of designers, father and son, that created it.*
