

PAN S COLLECTION

ZUCCHETTI.

ROBERTSON.CO.NZ

“

Pan is Zucchetti's interpretation of the pure, cylindrical type of single lever mixer. They have focused on connecting the vertical and horizontal elements. As in nature there are no cuts and welds, so the body of their faucet, designed like the trunk of a tree, creates the spout and the handle, using a gentle connection that is designed with exactly the same delicacy one would use in grafting a branch to a tree trunk.”

This is how Ludovica Serafini and Roberto Palomba described the birth of Pan in 2004, a project that was an immediate success, becoming a Zucchetti bestseller.

20 years later, the Pan collection evolves and finds a renewed formal identity while maintaining its initial inspiration. The new Pan S version has been updated making the products more slender and contemporary, emphasising the shapes' organic nature thanks to the complete elimination of diagonal cuts or insertions between the various elements. It has been enriched with a new three-hole version, and features exclusive new finishes.
