THE “SOTTOSQUADRO” CURVE

The NUR collection represents the pinnacle of Italian engineering and sanitary design, with the edges of the Nur washbasin requiring a reinterpretation of the classic casting process to accommodate the “Sottosquadro” curve. Craftsmen are required to gradually remove the plaster molds by hand to allow for a multi-stage drying process. The negative inclination of the edge is unique and represents the renewed ambitious attitude of Alice together with the designer Massimiliano Braconi.
