# ➔ FLAMINIA.

## MINIMAL TO ORGANIC, FROM RATIONAL TO ARTISTIC

Ceramica Flaminia's choral design project works with artists from various backgrounds who draw their inspiration from different cultures and traditions, giving their own interpretation of ceramics and bathroom design.

As bathroom design trends lean towards mixing different products to create a home that reflects personality, Flaminia partners with designers of great cultural prominence, focusing on an innovative design approach and highly recognisable styles.

Flaminia dedicates much of its energy to the development of solutions that can support and give shape to the creativity of the designers, as well as make it possible to realise highly complex projects. From minimal to organic and rational to artistic, these design styles are built on a feeling for the material and the skills of the company's expert craftsmen.

## COLOUR IS THE FUTURE

Behind each product in the catalogue there is not only the intent to enrich the range, but the desire to experiment with ceramics, open a path for the design of the future, propose a new bathroom aesthetic, bring to light a product that, declining colours and shapes, expresses character and personality.

We have always placed the emphasis on chromatic research.

We conceive colour as a design element like form and function and not just a decorative element.

A wide palette of colours that ranges from matt textural shades, such as Argilla, Fango and Carbone, to bright and glossy colours.

There is no shortage of glossy metal finishes, Gold and Platinum are also available for that glamorous look.
