Developed to minimise the presence of lead and nickel in drinking water

Grohe StarLight

Made-to-last surfaces ranging from precious matt to shiny like a diamond.

Grohe Quality

Designed & Engineered in Germany

Lockable Spout

Hygiene and ergonomics are essential considerations for health-sector washing areas and go hand-in-hand. Elongated and ergonomically shaped levers not only enhance convenience of operation, but also make it easier for medical and nursing staff to wash their hands and keep them clean. These faucets can easily be controlled with the underarm or elbow, meaning your hands don't have to come into contact with the faucet again after you have washed them.
