	BPIR - G12.3.7 G12 Water Supplies	This product complies with Building Code Regulation G12.3.7 G12 Water Supplies

Nobili Mania Goose Neck Kitchen Mixer is a stunning combination of style and functionality that will add a stunning touch to your kitchen area. It is available in a variety of finishes including chrome, brushed nickel, black, warm honey, chocolate red, and moon drop. The reason why the Mania series appears so stunning is that it has a slim and tapered sink body with an ergonomically curved shape. The aerodynamic body and global spout come together beautifully in form and functionality to seamlessly slide into any domestic kitchen setting. Beautiful to look at, as well, the mixer is a technologically advanced machine, for it also accommodates Nobili Widd® immersion cartridge—a patented technology by Nobili Institute of Technology (NIT).

The Widd® cartridge is specifically focused on eco-sustainability and conserves water and energy. The mixer has a push-forward handle that never touches splashback, and the flow limiter saves water by reducing the lever opening at half. It also features a temperature limiter that stops the maximum temperature, thus being efficient and safe to use. Mania Goose Neck Kitchen Mixer is 5 Star WELS rated at 6L/min, i.e., most efficient use of water. It features an anti-limescale aerator that provides ultimate protection against limescale deposition for smooth operation for a long time. The low friction ceramic disc system allows easy movement and maneuvering of the swivel spout, which operates smoothly with ease.

With its 2-year finish warranty and 20-year cartridge warranty, this kitchen mixer is built to last a lifetime and run like new year in and year out, becoming the crown of your kitchen. From its design in Italy to making in Italy, the Mania Goose Neck Kitchen Mixer blends innovative technology with refined style and resilience to match.
