Nobili Mania Square Kitchen Mixer with Pull-Out Spray offers the optimum of style and flexibility for your kitchen. Strategically crafted to fit into each kitchen environment, its sinuous, streamlined physique and adjustable spout render it a showstopper in your kitchen design. The pull-out spray comes with three multi-purpose options: an aerator jet, or a one- or two-jet hand shower, allowing you to choose the most suitable response based on your kitchen needs while still maintaining the appearance elegant.

At the heart of the Mania Kitchen Mixer is Nobili's Widd® immersion cartridge, a unique technological innovation developed by the Nobili Institute of Technology (NIT). This cartridge is engineered to help conserve both water and energy, achieving top-tier eco-sustainability. The high-quality materials used in its construction guarantee exceptional performance and long-lasting reliability.

Smart and environmentally friendly design features enhance functionality in the Mania Square Kitchen Mixer. Automatic cold-water supply opening prevents energy wastage as it blocks activation of hot water without necessity. Turn the handle in a clockwise direction to have access to the hot water supply. The flow limiter also prevents wastage of water by restricting lever opening to midway, thereby enhancing the mixer's sustainability and performance.

Available in several colors, Nobili Mania Square Kitchen Mixer is the perfect blend of sleek modern style, advanced technology, and eco-friendliness with functionality, great for kitchens with a demand for both functionality and beauty.
