BPIR - Scope of use

Wall basins are primarily used in bathrooms and washrooms for handwashing and personal hygiene, offering a space-saving solution ideal for residential, commercial, and public restrooms where floor space is limited.

BPIR - B2.3.1 Durability

This product complies with Building Code Regulation B2.3.1 Durability

The Elementi Bare Sixty Concrete Vanity Basin is a striking and modern addition to any bathroom, combining the rough aesthetic of concrete with refined craftsmanship. With dimensions of 600x240x115mm, the basin is stunningly proportioned to fit small or large vanity spaces, making it a chic focal point for your bathroom.

Crafted from Engineered Cementitious Composites (ECC), Bare Sixty's basin represents a higher form of durability and strength with the luxurious, sensuous finish of natural concrete. Hand-finished, the basin is one of a kind in that each one has slight deviations to the previous that add depth and character to the design for your bathroom.

The stain and heat-proof sealer provides an additional layer of protection, ensuring your basin maintains its beautiful look even with regular use. The basin is also highly scratch-resistant, hence the perfect choice for anyone who would want to enjoy both the functionality and the beauty.

Available in an assortment of colors, the Elementi Bare Sixty Concrete Vanity Basin can be painted to your individual choice and bathroom design. For a less intense neutral tone or more vibrant as a feature color, the basin may be painted to fit your creativity, with special orders for color being available by request.

Sleek and sexy, the Bare Sixty concrete vanity basin showcases the latest designer style with quality and craftsmanship in abundance. Standing behind a 5-year guarantee, you have the assurance of knowing that your Elementi Bare Sixty Concrete Vanity Basin will add timeless sophistication and durability to your bathroom for years to come.
