The countertop basin can be paired with the [Ode Bath](#), be the perfect complement to other baths in our collections or stand alone as a feature piece in a smaller setting. A simple, subtle undulation references the language of the Ode collection and pays homage to an Australian icon.

Emblematic of the textural qualities of the humble corrugated iron, the Ode Collection references the iconic undulations in a series of subtle, minimalistic lines. Elegant in its restraint, the collection was designed to echo the adaptability of its muse, suited to an array of settings – industrial, minimal, maximal, traditional or modern. The collection features a freestanding bath, countertop and pedestal basin, each hand crafted from our sustainable, apaiserMARBLE®.
