The marble bath stool is the final touch of luxury in any bathroom sanctuary, regardless of style. Designed for use as a side table to a bath or shower seat, the marble bath stool adds a finishing flourish to any stone freestanding baths from the apaiser collections.

Mimicking the ebb and flow of the fabric, the Tulle Collection is defined by a perfect profile of slender, uniform reeds. The texture creates depth and interest, while the undulating surface plays with light and shade. The collection is most arresting when finished in soft whites, or moody darks, which emphasise light and shadows highlighting the architectural detail.
