B2.3.1 Durability

The Helm collection by Zucchetti is a striking reinterpretation of classic tapware, designed by Lopez Quincoces. Crafted from steel, it transforms traditional cross-handle taps into refined, cylindrical forms with perfectly balanced proportions. Available in both single-lever and three-hole configurations, Helm combines industrial strength with sophisticated details like vertical ridges, knurling, and a variety of colors and textures. The result is a bold yet elegant statement—where high performance meets timeless Italian design.
